

Wilson Will Have 40,000 In Ohio, Are Indications

Hughes Was Leading In Early Returns But Reports From Dayton, Columbus and Cleveland Changed the Complexion—State Chairman Finley Claims 40,000 to 50,000 for the President

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, Nov. 7.—President Wilson had a lead of almost 20,000 votes over former Justice Hughes at 3 o'clock this morning. At that time 2,580 precincts of the 5,570 in Ohio had been counted and Wilson had 231,751 votes to 212,168 for Mr. Hughes. The returns came in slowly but the democratic candidate had maintained a slight advantage during the entire count, except for a period when the returns from Cincinnati predominated and the total for Hughes had shown a slight lead. This was overcome by the first returns from Dayton, Columbus and Cleveland.

Based on the returns at 2.30 Wilson was running slightly ahead of Senator Pomerene, democratic candidate for the United States senate and former Governor James M. Cox. Both were running behind the republican candidates but the lead was so light no prediction on the final result could be made with safety. Returns from 2206 precincts gave Senator Pomerene 179,965 votes as compared with 180,861 for Myron T. Herrick the republican candidate for the senate. Returns from 2141 precincts gave Governor Willis republican candidate for re-election 184,381 votes and Cox 182,731.

Republicans were returned to the house of representatives from five districts in Ohio the Fifth, Seventh, Tenth, Sixteenth and twenty-second. The re-election of seven Democrats was assured this morning in the Third, Ninth, Twelfth, Thirteenth, Seventeenth, Twentieth and twenty-first. In the Second district there was a close contest between Stanley Bowdle, Democratic member of the 68th congress and Victor Heintz. Heintz was believed early this morning to have a slight advantage.

Campaign managers of both parties claimed solid victories for their candidates. Republican state chairman Hatfield conceded that the result would be close on the presidential vote. He claimed Governor Willis would be re-elected by 35,000 to 50,000 and that Herrick was sure of victory by about the same vote. It was announced that Governor Willis went to bed after receiving this assurance.

Democratic Chairman W. L. Finley declared this morning that the entire Democratic state ticket had been elected and claimed the state by 100,000 votes.

Reports came from all counties in which Wilson had lead over Hughes, that the entire Democratic county tickets had been successful.

At 3 o'clock this morning returns for president from 3110 precincts out of 5570 in Ohio gave Wilson 233,045, Hughes 236,282.

Returns for governor from 2997 precincts of 5570 Ohio gave Cox for governor 263,717 and Willis 260,036.

CLOSE IN DELAWARE.
Delaware, O., Nov. 7.—Ten precincts in Delaware county gives Porterfield 789 and Ashbrook 780.

WILSON LEADS IN KNOX.
Mt. Vernon, Ohio, Nov. 7.—Returns at midnight from ten out of 39 precincts indicate that the race in Knox county is close. Wilson was leading with 106 votes. Congressman Ashbrook was leading Porterfield by 110 votes.

LEADS IN COSHOCTON.
Coshocton, Nov. 7.—At midnight ten precincts out of 42 in Coshocton county give Wilson 544, Hughes 517, Cox 747, Willis 649; Ashbrook 529, Porterfield 530.

COX CARRIES OTTAWA COUNTY.
Port Clinton, Nov. 7.—The heaviest vote in the history of Ottawa county was polled today, with nearly 6,000 ballots cast. Wilson was conceded a majority of 1,500. With only a few precincts officially counted, indications were that Cox, had carried the county over Willis for governor by several hundred and that senator Pomerene would defeat Herrick by a slightly larger plurality. The entire Democratic county ticket was elected.

WILLIS GOES TO BED.
Columbus, Nov. 8.—After having been assured by republican state

headquarters that he would be re-elected by from 40,000 to 45,000 votes, Governor Frank B. Willis retired to his room at a local hotel shortly before midnight. At the same hour, chairman Finley of the State democratic headquarters still claimed Ohio for Wilson by 100,000.

WILSON GAINS IN DAYTON.
Cincinnati, Nov. 8.—Returns from 1270 of the 5570 precincts in Ohio gave Wilson 109,082; Hughes 104,499.

Wilson gained with the receipt of the first 53 precincts from Montgomery county (Dayton) which gave him 5,692, Hughes 4,567 and in 200 pcts of Franklin county (Columbus) giving him 19,835 and Hughes 14,498.

GEN. SHERWOOD LEADS.
Toledo, Nov. 8.—Forty precincts out of a total of 292 in Lucas county give Hughes 2,045; Wilson 3,525. In 50 precincts on governor the vote is Willis 2,955, Cox 4,198. Isaac R. Sherwood, Democrat, is leading Frank L. Mulholland 3,483 to 2,148 for congress.

HERRICK LEADS BY 68.
Cincinnati, Nov. 8.—3.30 a. m.—Returns from 2951 precincts in Ohio give Pomerene 254,955, Herrick 255,023.

OHIO BY 42,000.
Columbus, Nov. 8, 3.30 a. m.—Democratic State Chairman Finley told Former Governor Cox, at Dayton, this morning, speaking over the long distance telephone, that President Wilson will carry Ohio by 12,000, Cox by 32,000 and Pomerene by 32,000.

VOTE ON GOVERNOR.
Cincinnati, O., Nov. 8.—3.30 a. m.—Returns for governor from 3263 precincts out of 5570 give Cox 233,710; Willis, 236,336.

HAMILTON COUNTY.
Cincinnati, Nov. 8.—Returns from 542 of the 556 precincts in Hamilton county give Wilson 50,503, Hughes 62,234, Cox 52,901; Willis 60,627; Pomerene 49,865, Herrick 62,484. The 14 missing precincts are in that part of the county outside the city of Cincinnati.

POMERENE STILL LEADS.
Cincinnati, Nov. 8, 4.30 a. m.—Returns for U. S. senator from 3,456 precincts in Ohio out of 5,570, give Pomerene 289,464; Herrick 281,614.

WM. A. ASHBROOK RE-ELECTED OVER E. L. PORTERFIELD

Congressman William A. Ashbrook has been re-elected by a handsome majority to represent the Seventeenth Ohio District.

Thirty-five of 73 precincts in Licking county give Ashbrook 3665 and Judge Porterfield of Delaware his Republican opponent 2322. Twelve precincts in Richland county give Ashbrook 300 majority and a special dispatch to The Advocate from Mansfield says he will carry Richland county by 1200. Delaware will give Porterfield a small majority according to telephone advices this morning. Mt. Vernon reports that the vote in Knox county will be close. Porterfield will lead in Ashland county but Ashbrook will carry Coshocton county. Returns at 4 a. m. are so incomplete as to make a definite forecast on Ashbrook's majority impossible.

DEMOCRATS DO NOT CONCEDE NEW HAMPSHIRE

(ASSOCIATED PRESS TELEGRAM)
Manchester, N. H., Nov. 8.—5 a. m.—With only 14 precincts to hear from, it appeared early today that Hughes' plurality in New Hampshire had been reduced to 2500 votes. Democratic headquarters issued a statement by Chairman Ferrand refusing to concede that Hughes had carried the state.

Nearly Fifty People Killed When Boston Trolley Car Plunged Through Open Draw

(ASSOCIATED PRESS TELEGRAM)
BOSTON, NOV. 8.—NEARLY FIFTY PEOPLE LOST THEIR LIVES WHEN A SURFACE TROLLEY CAR OF THE BOSTON ELEVATED RAILWAY COMPANY PLUNGED THROUGH AN OPEN DRAW AT THE SUMMER STREET BRIDGE LAST NIGHT. THE MOTORMAN, GEORGE WALSH, WHO, WITH THE CONDUCTOR, GEO. McKEON, SAID HIMSELF BY JUMPING, ASSERTED THAT THE BRIDGE WAS NOT PROPERLY LIGHTED, AND THAT HE SAW NO SIGNALS INDICATING THAT THE DRAW WAS OPEN. ON THE CONTRARY, THE BRIDGE TENDERS IN CHARGE OF THE DRAW SAID THAT THE RED SIGNAL LIGHTS ON THE GATES WERE SHOWING AS USUAL. FORTY-FOUR BODIES HAD BEEN RECOVERED BY DIVERS AND BY THE POLICE WITH GRAPPLING IRONS AT AN EARLY HOUR THIS MORNING.

EARLY MORNING RETURNS SHOW PRESIDENCY IN DOUBT

Woodrow Wilson

New York Gives Hughes 100,000; May Defeat President Wilson

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 8.—The state of New York has been carried for Hughes by a plurality of more than 100,000. All of New England states and New Jersey as well as Wisconsin and Michigan have been removed from the list of doubtful states. Although President Wilson's secretary at the summer White House and Chairman McCormick made claims that complete returns would show the re-election of President Wilson, the trend of the face of returns was toward Hughes and newspapers which have supported Wilson conceded his defeat. Early last evening a great majority for Hughes in New York was evident and the state was conceded by the Democrats.

Soon afterward Democratic supporters conceded the loss of New England to the Hughes column, and incoming returns from middle-west, although far from complete showed the Hughes figures growing fast. At 2 o'clock this morning only fragmentary bulletins were received from Indiana and Missouri with not a word from any state farther west. "Remember 1884," was the prediction of the Democratic publicity bureau which pointed out that in that memorable contest the next day's revised returns placed Grover Cleveland in the White House. Just after eleven o'clock last night Republican headquarters absolutely claimed Connecticut, Delaware, Illinois, Indiana, Maine, Massachusetts, Michigan, New Hampshire, New

Jersey, New York, Oregon, Pennsylvania, Rhode Island, South Dakota, Vermont, Washington, West Virginia, Wisconsin and California with a total of 254 electoral votes. That was twelve less than the 266 necessary to an election. But the statement appended added that a sudden switch in the states incomplete or unheard from might increase the Wilson figures but they were sure the latter figures would add to the states they were claiming.

NEWTON MILLER CONCEDES OHIO TO COX AND WILSON

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 8.—At 3 o'clock this morning Newton Miller, assistant secretary of the republican state committee, who had been receiving returns from over the state at the headquarters, conceded that Wilson had carried Ohio by 40,000 and Cox by 20,000. He said he based his figures on the loss of Willis votes in the rural communities.

Chairman Hatfield, however, would not concede that Ohio had gone for Wilson. He said "the race is close."

MR. FINLEY SAYS WATCH THE COUNT.
Columbus, Nov. 8.—Chairman Finley and Democratic leaders went into secret conference early this morning with the announced intention of discussing "the protection of the ballot boxes," following the receiving of a report at headquarters that an attempt would be made to "steal" the election. Finley proceeded to instruct all Democratic election officers and county chairmen over the state to scrutinize the official count with care.

CLAIM OF 304 VOTES FOR WILSON

New York, Nov. 8.—Vance McCormick, chairman of the Democratic national committee gave out the following statement at 5.29 o'clock this morning: "President Wilson was re-elected yesterday by the people of the United States. He will have certainly 304 votes in the electoral college and this may be increased by belated returns from doubtful states. "The victory is emphasized by the reluctance of the enemy to admit defeat and is a complete repudiation of the unfounded claims sent over the country by the Republican national committee last night."

MISSOURI FOR WILSON.
St. Louis, Nov. 8.—Late returns from Jackson county increased Wilson's lead over Hughes in Missouri to 12,700. 1844 precincts out of 1470 in the state gave Wilson 214,004, Hughes 201,252.

ASSOCIATED PRESS GIVES VERY LATEST IN THIS EXTRA

Never since the memorable campaign of 1884, when Grover Cleveland defeated James G. Blaine for the presidency, have such crowds been in front of sources of news as were gathered last night. Until after 2 o'clock, Wednesday morning, West Main street in front of the newspaper offices, was blocked by a throng of people that it was almost impossible to go through. As later returns came indicating that Ohio might be swung into the column of the states supporting President Wilson, cheer after cheer was given, while the close race in the county was a theme which many discussed.

The Advocate's service was accepted as impartial, and as complete as it was possible at the time to render. Many people were imposed upon by special editions of Columbus papers appearing shortly after midnight but the subscribers to The Advocate were given the very latest, in this extra containing the election returns, nation-wide, as given by the Associated Press, acknowledged to be the most reliable news agency in the United States.

Democratic County Ticket Seems Safe, Except for Sheriff

Close Race for Sheriff, Clerk of Courts and Prosecuting Attorney Interests Friends of the Candidates—County Gives Pres. Wilson and Former Governor Cox Splendid Vote—Ashbrook Returned by 17th District.

Returns from 35 precincts which had been tabulated at 3 o'clock this morning, indicate that most of the county Democratic ticket will be elected. At that hour Michael Sachs, Republican candidate for clerk of courts was leading Leo Davis, Democrat by 25 votes and Charles Swank, Republican candidate for Sheriff was leading R. L. Patton, Democrat, 231 votes, in 44 precincts.

The race for Prosecuting Attorney, between Charles L. Flory and Joseph W. Horner was also a "horse race."

Aside from these three offices, the indications were that the Democratic candidates generally were successful. Licking county did nobly on the national and state ticket, returning a splendid vote for President Wilson and former Governor James M. Cox. Licking was among 1,000 counties to help swing the Ohio vote toward the president when earlier returns seemed to indicate that Justice Hughes would carry the state.

The returns were slow in coming in full. It was fully an hour later before the various city and county precincts reported with any degree of regularity.

It was evident from the beginning that the county would return a safe majority for President Wilson and former Governor Cox but there was also an indication that the vote would be close on county offices. At 4 o'clock this morning returns from 58 out of Licking county's 73 precincts had been tabulated and totaled. At that time the figures indicated that these officers were elected on the county ticket.

Representative—James J. Hill, leading by 300 majority. Sheriff—Charles H. Swank, leading by 286. Auditor—Fred S. Wilson, leading by 697. Commissioners—J. C. Butt, C. D. Lake and J. D. McCracken, leading by about 500 votes each. Treasurer—Will H. Miles, leading by 800 votes. Surveyor—John C. Swartz, leading by 900 votes. Coroner—W. L. Jackson, no opposition. Probate Judge—Robbins Hunter, leading by 500.

The vote for the democratic and republican candidates for clerk of courts, recorder and prosecuting attorney was so close that it could not be claimed at that hour for either candidate.

Both Sides Now Claim Election

New York, Nov. 8, (5 a. m.)—No concession has been made by either the Hughes or Wilson leaders. Both sides are at this hour claiming 300 electoral votes. Two hundred and thirty-six electoral votes are necessary to a choice for the presidency.

CLAIM OHIO FOR PRES. WILSON BY AT LEAST 40,000

(ASSOCIATED PRESS TELEGRAM)
Columbus, Nov. 8.—At 2 o'clock this morning, democratic state chairman W. L. Finley, in a telephone conversation told Vance McCormick, democratic national chairman, that Wilson will carry Ohio by from 40,000 to 50,000, this estimate based on incomplete returns for 2580 of 5760 Ohio precincts, which gave Wilson 231,751 and Hughes 212,168.

W. M. MILLER IS ELECTED PROBABLY IN THIS DISTRICT

The indications this morning point to the election of William M. Miller, Republican, as state senator for the joint 15th, 16th district comprising Licking, Delaware, Perry and Muskingum counties. His opponent is J. Henry Miller, Newark attorney. While J. H. Miller has 3780 to Wm. Miller's 2932 in Licking county in 39 of 73 precincts, reports coming to the Advocate up to 4 a. m. are

NEW YORK IN HUGHES' COLUMN

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 8.—Charles E. Hughes, Republican candidate for president, carried New York state by approximately 100,000, the returns early this morning, with only 326 districts missing out of a total of 5,807. His total at that hour was 332,095 as compared with 228,995 for President Wilson.

Governor Whitman ran ahead of the Republican national ticket and his lead over Samuel Seabury with 851 districts lacking was 124,711.

UTAH FOR WILSON BY OVER 5000

(ASSOCIATED PRESS TELEGRAM)
Salt Lake City, Utah, Nov. 8.—Allen Miller, Republican state chairman, said this morning: "President Wilson has carried the state by more than 5,000 and the indications are that Senator Sutherland is beaten. We hope to save the governor."

WILSON IS LEADING IN KANSAS; RACE CLOSEST IN HISTORY

Kansas City, Nov. 8.—President Wilson had a lead of 5,274 votes at 2 o'clock this morning over Charles E. Hughes in one of the closest election races the state has ever known. With 630 precincts out of 2474 reported, the president had a total of 192,490 votes against 97,216 for his republican rival.

WILLIS 7500 BEHIND.
(ASSOCIATED PRESS TELEGRAM)
Cincinnati, O., Nov. 8, (5 a. m.)—Returns for governor from 3560 precincts give Cox 330,200, Willis 322,674.

W. M. MILLER.

that W. M. Miller will carry Muskingum by 1200 to 1500 and that he will carry Perry and probably Delaware counties. If his majority in Muskingum county reaches the proportions that Zanesville advices indicate, he will no doubt be declared senator-elect for the joint 15th-16th district.

In Muskingum county 42 of 73 precincts give 3413 for J. H. Miller and 3487 for W. M. Miller. Perry county shows 23 of 43 precincts 2153 for J. H. Miller and 2436 for W. M. Miller. Delaware county is reported as "close." It now appears that W. H. Miller will carry Licking and W. M. Miller will carry the other three counties in the joint district.

William M. Miller is a resident of Dresden. He formerly published the Zanesville Times-Recorder. Mr. Miller at one time lived in Granville and he was in charge of the campaign for the "dry" forces in the first "wet and dry" election in Licking county several years ago.

VACATION IN CHINA.
Tokio, Nov. 7.—George W. Guthrie, American Ambassador to Japan, has gone to China for a month's vacation. This is his first visit to China. While at Peking he will probably discuss the Far Eastern situation with Minister Reisch. Mrs. Guthrie accompanies her husband.

The Election.

The election returns up to midnight strongly indicated the election of Charles E. Hughes to the presidency but up to that hour practically nothing had been heard from the states west of Missouri. New York, all of the New England states, Wisconsin and Illinois were placed in the Republican column and fragmentary returns from Ohio indicated that the Buckeye state too might cast her 24 electoral votes for the Republican candidate. While the Republican leaders were claiming a victory for Hughes and a number of important newspapers, several of which had supported President Wilson announced that Hughes had won. The President's party managers did not concede Mr. Hughes' election.

After midnight the Ohio returns indicated that this state would cast its vote for Wilson. Cox, and at the same time the figures showed the race for the senatorship between Pomeroy and Herrick to be exceedingly close. With the later Ohio returns came demands of encouragement to the Democrats. Kansas and Nebraska at 4 o'clock this morning showed a strong tendency to enter the Democratic column and with the later returns from other states that had been claimed for Hughes, the Wilson leaders reiterated the earlier claims that Wednesday would show that Wilson had been elected. While many of the morning papers today will disclose that Hughes has won the Associated Press at 3 o'clock this morning advised the Advocate that the association had no prediction to make at that hour owing to the fact that he race seemed to be close.

Utah, conceded as a Republican stronghold, has gone for Wilson. Minnesota is classed as doubtful with probabilities that the state will line up with the President.

While it seems probable that Justice Hughes has defeated President Wilson in the light of returns from the eastern and some of the central states, it should be remembered that the returns from those states are as yet incomplete and that no complete returns have as yet been received from the far west.

At 4 o'clock this morning the dispatches indicate that James M. Cox has probably been elected governor of Ohio, that President Wilson has carried this state, that William A. Ashbrook has been returned to congress and that Wm. M. Miller of Dresden, has been chosen state senator. On the county ticket the returns are not complete but the indications are that one or more of the Democratic local candidates will fail of election.

The Commissioners.

The election of the entire board of County Commissioners by the Licking County Democrats is evidence that the policy which has been pursued during the administration of this office, under the present majority Democratic members, Messrs. Joseph Orr and Frank Dunn is to be continued.

Charles D. Lake will be the member for the city, while J. E. McCracken and J. C. Butt will represent the rural districts, both of which are really as one in their essential interests.

In the conduct of the commissioners' office there should be no discrimination between the interests of city and county and with J. E. McCracken, J. C. Butt and Charles D. Lake there will be none, and the county's interests will thus be best conserved.

John C. Swartz was elected Licking county voters upon a straightforward platform of economy in public expenditures and yet a generosity of public improvement. He has made a good official and his return to office is merited.

Congressman W. A. Ashbrook's record during his incumbency of the office, has been such that it entitled him to the magnificent majority that returns indicate.

Wisdom, care, and skill are the eminent qualifications of Fred S. Wilson which appealed to the voters who elected him county auditor.

Returning Militiamen.

When the militiamen were called to the border, many facile newspaper scribes wrote eloquent words about those who would leave their bones to bleach on the Mexican deserts. It sounded well in

print, and must have been quite cheering to the relatives. As the boys are gradually being sent home, it is the general report that they come out looking hale and hearty. Many of them have benefited physically from the vacation and out door life.

The National Guard regiment suffered from various hardships. Some of these were unavoidable, and some were due to the amateur and makeshift methods that have always existed in this country. There is a widespread impression that these returning guardsmen will retire from the service the moment they can secure a discharge, and that it will be more than ever difficult to fill these regiments.

There is an obligation on every young man to do something for the community that has nurtured him. He has had the benefit of good schools. He has grown up in an environment of peace, due to the sacrifices of pioneers and soldiers of past generations who securely established our republic. He has free institutions under which all his powers have opportunity to expand and bear fruit. All this is due to these same sacrifices of past generations.

The young man ought to make some return for this. He is perhaps too young and too immature to work for the causes of civic advance and philanthropic reform in which older men exert themselves. About all he can do is to train himself for the possibility of military service. The chances are very strong that he will never be called on for a real war.

But even if called out, the hardships he must suffer and the perils he must encounter are far less than his forefathers suffered for him. Therefore, if there proves to be difficulty in keeping full the ranks of the National Guard, it indicates a too low state of patriotism and community service.

Literary Club Work.

The average citizen feels rather dumfounded as he looks over the ambitious program that his wife may be studying in some literary club. As he notes the papers she will hear or write on Browning, Tennyson, Carlyle, or the development of poetry and the drama, he feels in very deep water. It strikes him that a great many of our women are living in a sphere of thought quite foreign to the business life of every day.

The people who write papers for such clubs get a mental exercise to get up an interesting essay for club purposes. It teaches logical arrangement of facts and ideas, and helps one distinguish what is real and vital from what has no particular significance.

As to how much is gained just by attending club meetings and hearing the result of other people's study, this depends on the individual. With some persons the real motive is probably the cup of tea and social converse after the lecturer has ceased and the audience wakes up.

With others, the better familiarity with the world's great thinkers becomes infinitely valuable. These volumes, which become dusty in so many libraries, contain thoughts that are an anchor to the heart in times of storm. The literary club program may be the path through which many a seeker for broader living has found answers to the riddles of the universe.

There is a growing tendency among these clubs to take up problems of social service. This seems really more worth while than any mere search for facts about Russia or China. The modern study of problems like pauperism, unemployment, sanitation, education, opens up a world of new ideas. It is by such study that scientific methods of advance become popularized, and that community leadership is created.

Quaker Quips.

(Philadelphia Record.)

One of the greatest drawbacks of literature is return postage.

Most women just love birds and flowers, especially on a hat.

If every rose has its thorn, how about those flower beds of ease?

Silence is golden. If a dog could talk, he wouldn't make such a good friend.

The worst thing about being prepared for an emergency is that it may never come up.

A man may take on weight with age, but that doesn't prevent his hair from getting thin.

Railroad Time Tables.

Managers of railroads and trolley lines sometimes ask what they can do to conciliate public sentiment. They find themselves the center of some hostility, largely due to past abuses of corporate management. They realize that a public service corporation needs the friendly sentiment of the public, but they don't always know how to get it.

One thing that will promote public convenience is to publish in the newspapers correct timetables. One of the most annoying things in taking a journey is to lose trains. As most railroads change their schedules with some frequency, people are continually getting left because they naured on a former leaving time. People can not always be running to the railroad stations to procure the latest timetable. If they did, the company would be up against an additional cost for printing.

A schedule printed in the home newspaper, showing when trains arrive and leave at the local station, is a public service. It need not take much space. People would consult it every time they travel, and it would save much of the demand for the complete printed timetable, which must be expensive to get out.

No doubt it would have some tendency to increase travel. The advertisement of a railroad is a reminder of the idea of travel, and would suggest to people the journeys they would like to make.

It may be said that the newspaper in making this suggestion is merely seeking to sell its advertising space. But it is surely legitimate for the newspaper to remind the business people of the value of advertising. Some years ago it was much more customary for railroads to print their timetables in newspapers. Under the new transportation laws, a great deal of exchange of advertising for free transportation has been cut off. The result has been much complaint on the part of the public that timetables are not printed as they used to be. It would not cost much to remove that source of complaint.

Spirit of the Press

British Viewpoint.

Two or three technically noble speakers with handles to their names have been raving in the British House of Lords to the general effect that the handy presence on the scene and the timely life-saving efforts of those American destroyers at the time of the German U-boat raid off Nantucket smelted of a break of neutrality by our navy and suggested a certain collusion with the Germans. Apparently it is the theory of these noble and right honorable peers that the American sailors, being apprised that the operations of the U-boat might involve some danger to the crews and passengers of imperiled merchantmen, should have carefully remained out of the way and out of earshot of the call of humanity.—Milwaukee Sentinel.

Specialty Farming.

Seeing the price of all kinds of food advancing, the average man feels like offering much advice about the raising of these products. Of course such suggestions are apt to be worthless. Still it is admitted by most experts that farm methods of past years have been inefficient and unbusiness like. So the consumer may perhaps express an opinion about the general principles on which he thinks farming could be placed more on a business basis.

A hint in that direction is offered by a dispatch just published from Burlington, Vt., telling how one man had made \$8,000 by raising cabbages on 12 acres of land. While a good many farmers are making handsome profits nowadays, it is not likely that many of them have cleaned up \$8,000 in one year by raising cabbages. This man no doubt succeeded by specializing on this crop. He must have studied every authority on the raising of this vegetable, and talked with every man who could give him any practical information.

Many farmers fritter away their energy by doing too many different things. In most forms of production the man who wins out is the one who specializes. He produces few lines, but gets out a large amount on each line. In that way his help becomes expert on that proposition. When you double your production, you do not usually double the labor costs. But you should increase the skill with which the work is done. The expense account grows smaller per unit of production, and the results should become of better quality.

Of course in specialty farming, if there is a crop failure, it is more disastrous. But the specialty farmer should be better able to protect his crop from insect pests and the vicissitudes of weather.

The consumer's hat goes off to the farmer who can make a success in any kind of food raising. He performs a public service in a time of struggle with living costs.

Continued Prosperity.

(Ohio State Journal.)

In an argument against the idea that the business of this country would suffer at the close of the European war, it was officially stated that the exports of all kinds of war munitions amounted last year to only one-fifth of 1 per cent of our total domestic trade. That surely does not indicate the close of prosperity when the war ends. Add to this fact that this country now holds one-third of the world's stock of gold; that this is the great creditor nation and we can use our credits in such a way as to prevent all financial disaster or slump in industry. Besides all this, there are the federal reserve act that will prevent the congestion of currency, and the farm loan act, which will provide needed funds on land security, and it seems not possible that prosperity will end with the war. The future seems bright, but the best way to make it sure is to settle in the land of hope and live within your means.

New State of Poland.

(Pittsburgh Gazette Times.)

Another atrocity by the central powers of Europe is the proclamation of an independent Polish nation. This puts off the end of the war indefinitely. It is an innumerable invasion of the asserted right of Great Britain to the overlordship of the world. Such opposition to the entire allied plans to determine and defend the rights of small nations cannot be tolerated. It is unquestionably will interfere with the equitable apportionment of the spoils of victory according to the English idea. It will make difficult the delivery of "the goods" to Russia and the other allies who have done most of the fighting. Besides which, it is not merely a Tontine trick, it shows up England as a sham in its vaunted character as to sole possessor of the virtues in behalf of which she professes to be fighting.

TURPO
THE TURPENTINE OINTMENT

What to Do for a Bronchial Cold

When a cold "settles in your chest," you know it's likely to be serious. You can generally prevent a cold from going that far—by using **Turpo promptly**. But if you've waited too long and have a deep bronchial congestion—even then, a vigorous use of **Turpo** will probably drive it out. Rub **Turpo IN**. Apply it liberally—and bandage with flannel. The turpentine penetrates; the menthol and camphor soothe and heal. **Turpo** helps catarrh; eases pain; heals cuts and burns; and when used after shaving leaves the skin feeling fine. Buy **Turpo** of your Druggist. 25c, 50c, \$1.00.

NEWARK STORE WINS PRIZE IN EDISON CONTEST

The first prize offered in the Edison Week Display Contest, was split two ways when the judges of the contest were unable to determine which phonograph submitted of two windows were the best.

The two best display windows and which those of the Stewart, Alward and company, in the Arcade and the C. H. Smith Company, store in Warren, Pa.

So in order to settle the contest, the judges awarded a check to each of the first contestants for \$50. This was one of the best advertising stunts ever put on by the Edison company, resulting in a nation wide interest in the Edison machine.

The Stewart, Alward and company store, in this city, by its clever display window had won a niche in the hall of fame, and attracted the attention of the advertising world.

STATE JOBS GOING BEGGING; OHIO IS TOO PROSPEROUS

Columbus, O., Nov. 7.—The state civil service commission reports few applications being filed for several good positions now open in the civil service lists. The present prosperity accounts for the lack of interest in the civil service jobs, officials say.

On November 8 competitive examinations will be held at Columbus, Cincinnati, Toledo and Dayton for the following positions: Gardner, girls industrial school at Delaware salary \$720 a year; shoe maker, girls industrial home, \$40 a month and maintenance; concrete worker girls industrial home, \$50 a day; assistant testing engineer, state highway department, \$900 a year; crane-man, board of public works, \$90 a month; florist and greenhouse man, board of administration; \$40 to \$75 a month and maintenance. There are also positions open at the boys' industrial school, Lancaster, Ohio State Sanatorium, Mt. Vernon, and at the Toledo state hospital.

November 9—Examination will be held at Columbus, Cleveland, Cincinnati, Toledo, and Dayton for draftsmen and tracers, Ohio board of administration and board of public works, \$720 to \$960 a year; assistant physicians (male and female) all state hospitals, \$900 to \$1200 a year; automobile inspector, division of registrar of automobiles, \$1300 a year and traveling expenses; superintendent of shops, state reformatory at Mansfield \$1800 a year; proofreader, state reformatory (male) \$1000 to \$1100; poultryman; state reformatory, \$950 to \$1080.

Examinations will be held November 10 at the same place for dairyman at the state prison farm at London, \$4.30 year and maintenance; assistant cabinet maker, state reformatory, \$1100; foreman and assistant foreman, state reformatory, \$1400 and \$1200; superintendent of barns and coachmen at state reformatory, \$1020; press room foreman, state reformatory, \$1100 to \$1200.

Examinations will be held the following day at the same places for assistant superintendent, boys industrial school, \$1400 with maintenance; furnisher finisher, state reformatory \$1200 to \$1300; chef state reformatory \$1200; storekeeper, state institutions, \$600 to \$960. Positions are now open also at the school for the blind, with part maintenance; boys industrial school; Columbus state hospital; Toledo state hospital and prison farm, with full maintenance; dairy inspector, state board of agriculture, \$1200 a year and traveling expenses; district deputy, division of workshops and factories, \$1200 a year and expenses.

7500 FIREMEN GUARD PROPERTY IN THIS STATE

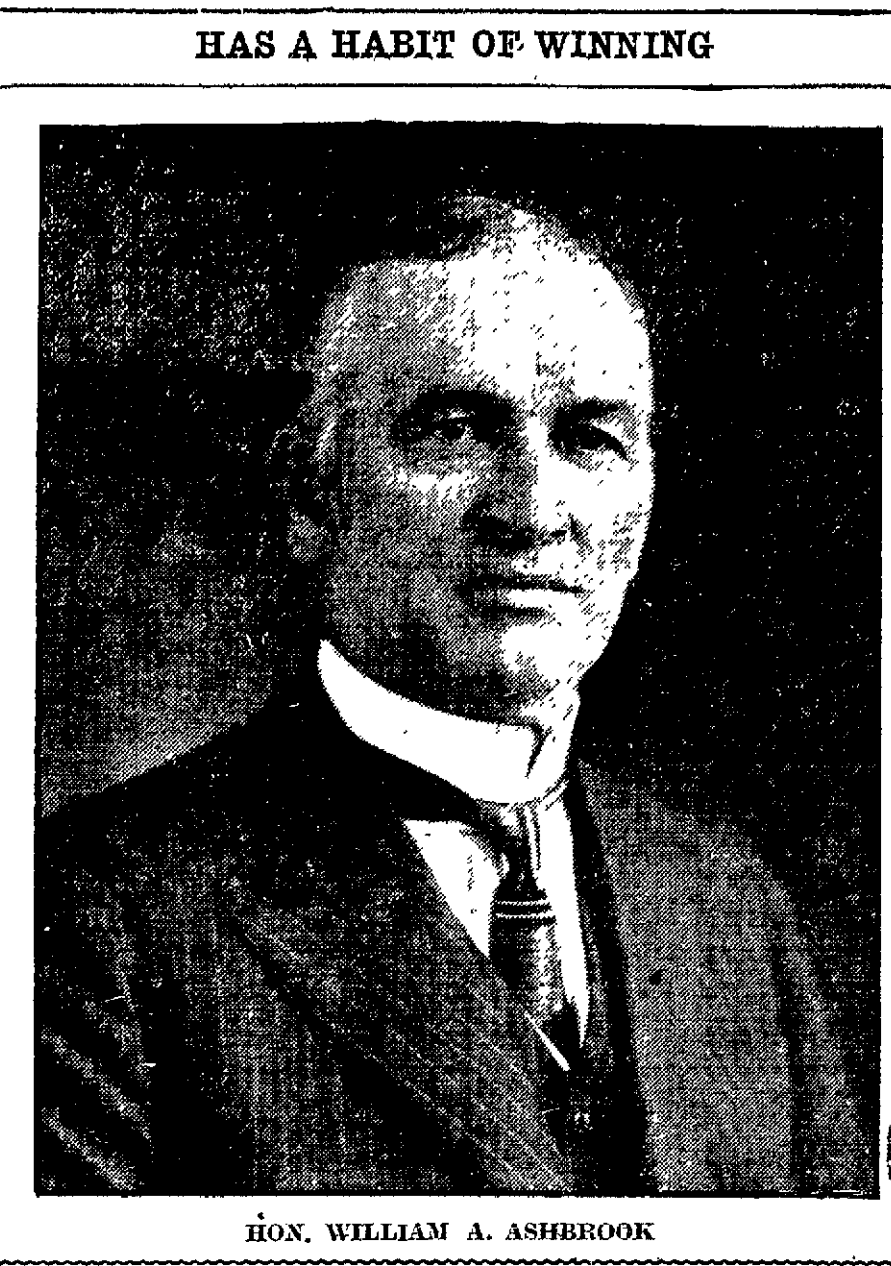

Columbus, O., Nov. 7.—There are more than 7500 firefighters in the state, according to a report of a survey made by the state fire marshal's office. Nearly one-half of these men are volunteers. More than 3,900 are paid men and nearly 1,200 are receiving pay for part time service.

There are about 50 full-pay departments. The salaries range from \$6,000 paid in Cincinnati, down to nothing. In some localities the firemen are paid for answering each alarm.

There are nearly 500 fire engine houses in Ohio, with 68 departments either motorized in full or in part. 189 municipalities have water-works and 139 have not, of the 185, 139 are municipally owned.

Forty-five municipalities have a building code and 102 have a fire limit ordinance. Twenty-nine have roofing ordinances and 53 have gasoline regulation ordinances.

HON. WILLIAM A. ASHBROOK

BEASLEY LOST FIRST VOTE; WAS IN SANITARIUM

Arthur Beasley, aged 22 years, 469 Maple avenue, for the past several months had looked forward to November 7, when he would be permitted to cast his first presidential vote. But at the eleventh hour fate intervened and instead of sending young Beasley to the polls to cast his vote, sent him to the Sanitarium.

Late yesterday afternoon while working at the top of a telephone pole at Williams and Cambria streets, Beasley touched a live wire and was hurled to the street below.

He was hurried to the Sanitarium in Bazler's ambulance where he was attended by Drs. J. G. Shirer and Carl J. Evans. Beasley's injuries consisted of fractures of both wrists, his teeth knocked out, a number of minor bruises and probably internal injuries.

Last night at the Sanitarium the young man was resting easily and at the opinion that his injuries would not prove fatal.

The young man at noon yesterday had been urged by his uncle, Samuel Alsdorf, of Ash street, to cast his vote, but Beasley decided he would have time to vote after his work was done. But a short time before the job was completed he received the injuries which sent him to the hospital.

SUNRISE HOUR FIXED BY O. S. U. OBSERVATORY

Columbus, O., Nov. 8.—The following astronomical data for the month of November is furnished by the Emerson McMillin Observatory of the Ohio State University.

The local mean times of sun rise and sun set are as follows:

November 8, sun rises at 6.36 and sets at 4.51.

November 15, sun rises at 6.44 and sets at 4.45.

November 22, sun rises at 6.62 and sets at 4.40.

STEAMSHIP OWNERS INTERESTED IN PLAN FOR LUBIN COMMISSION

London, Nov. 7.—Representatives of thirteen of the trans-Atlantic steamship lines, in a meeting just held in London, listened with great attention to arguments in favor of the proposed International Commerce Commission by David Lubin, of New York and California, who succeeded in getting through Congress resolutions endorsing the idea which has for its object the steady- ing of prices of staples through the fixing of freight rates on ocean bulk traffic.

Mr. Lubin has succeeded in interesting the big shipping men here in his plan, among them being Walter Runciman, President of the Board of Trade, who is a member of a wealthy shipping family. The meeting was called by Sir Norman Hill, a great Liverpool shipping magnate. Among the lines represented were the American, Alien, Atlantic Transport, Associated Lines, Canadian Pacific, Cunard, Dominion, Furness Withy, Harrison, Leyland, White Star and Wilson.

Mr. Lubin's address was followed by questions from practically all attending that revealed general interest in the plan. To questioners who feared the result of such a strict control of the lines as to compel them to conform to special rates, Mr. Lubin pointed to the benefits sustained by the railroads in the United States from the Interstate Commerce Commission's rules.

"Before the Interstate Commerce Commission came into being the price of the leading American railway stocks on your market here were as uncertain as those common wildcat schemes offered to the public," he said. "But the stabilizing effect of the Interstate Commerce Commission's control has, as you know of your own personal knowledge, converted them into the highest gilded securities."

About the only thing some people can take seriously is a practical joke.

MANSFIELD CHIEF IN SERVICE FOR PAST 51 YEARS

Columbus, O., Nov. 7.—George Knofflock, chief of the Mansfield fire department, holds the record of the entire country for long fire department service, according to attaches of the state fire marshal's office. He has been a fire fighter for 51 consecutive years, rising from pipeman, when he joined the service in 1865, to his present position of chief, which he assumed in 1886.

The current monthly issued by the state fire marshal gives a sketch of the veteran chief's life. He was born at Philadelphia, April 3, 1847, went to sea at 12; enlisted in the United army in 1861, but was rejected; enlisted again in the same year in Company E, 32nd O. V. I. of Mansfield; re-enlisted as a veteran in 1863 at Vicksburg. Knofflock took part in 22 battles, it is reported, and was with Sherman on the march to the sea. After the war he returned to his point of enlistment and has since lived there. He was president of the Ohio Fireman's Association in 1913 and 1914.

TUNNY FISH IS POPULAR FOOD AMONG GERMANS

Berlin, Nov. 7.—All Berlin these days is living "in the sign of the tunny fish"—the best substitute for genuine meat that has been discovered since there began to be a restriction of the regular meat supply. On "meatless" as well as other days tunny now occupies a respectable place on the bill-of-fare of every big Berlin restaurant, and great quantities of it are being eaten.

One large and very well patronized cafe, for instance, offers, each Tuesday and Friday, under the heading of "Meat Dishes," the following four items: "Fricassee of tunny with rice, tunny schnitzel with peas, carrots and fried potatoes, German beefsteak of tunny fish with spinach and fried potatoes, tunny goulash."

The meat of the tunny is coarse and somewhat strong, or gamy, and too much of it palls. But it is nevertheless an excellent substitute for meat, and likewise a relief from the finer fish that grows very tiresome if eaten week in and week out. The supply of tunny is said to come principally from the Adriatic.

RURAL ARISTOCRACY PREDICTED BY O. S. U. FOR THE UNITED STATES

Columbus, O., Nov. 7.—Speaking at a meeting at Ohio State university, Professor Harry C. Ramsower of the department of agricultural engineering declared that an aristocracy and a peasantry are being formed in the United States that will soon equal that of Europe. This, he declared, will be due to an increasing custom of renting farm properties. He also emphasized the importance of school houses and churches as community centers.

"There is an alarming increase in tenantry," he said, "which is tending toward an aristocracy. While we think agriculture is prospering, there is developing in America a peasantry which will grow to equal any in Europe."

OHIO STATE PROMISES GOOD BASKETBALL TEAM

Columbus, O., Nov. 7.—Basketball practice at Ohio State university has brought out about 20 men to date and every day is furnishing new recruits for the pre-season practice. There are a number of old players on the floor and indications are that Ohio State will be represented by an exceptionally strong team this season. Regular practice will be started immediately after the football season closes and it is expected that the squad will be greatly enlarged and strengthened at that time. The football men will come to the basketball floor in fine condition and the day of their appearance the real fight for positions on the team will be on.

There are a number of promising candidates from last season's yearling team that are showing well in the early practice and some of them promise to give the older men a hard fight for places.

NEWARK MASONS TO ZANESVILLE FRIDAY NIGHT

The officers and drill team of Newark Lodge, No. 97, F. & A. M., will go to Zanesville Friday evening to confer the Master degree on a candidate for Amity Lodge, of that city, and every local member who anticipates making the trip is urged to notify J. F. Callender at once.

Arrangements are being completed to make the trip by motor and for this reason every one making the trip should make this known before Tuesday so that a sufficient number of automobiles can be secured.

On the Mt. Vernon trip a number were disappointed in not being able to go because they had not notified the committee and hence there were not enough autos to carry the crowd. Please avoid this difficulty by complying with the above request.

SCHOOL BOARD MUST BORROW \$2500 TO MEET REGULAR BILLS

At the regular meeting of the Newark Board of Education last night, Clerk Montgomery of the board, reported to the other members that it was necessary to borrow \$2,500 to meet the monthly bills. The loan was sanctioned by the board and the bills allowed.

President William Miller reported to the members that L. F. Carl, of the Newark Natural Gas & Fuel company, had recently requested that the board of education use coal instead of gas for heating the schools. A short time previous to this, Mr. Miller stated Mr. Carl had made a request of the board to use gas instead of coal.

On account of the gas company being unable to determine just what it did want the board to do, there was no action taken on the matter. The board decided to ignore the request until something definite was learned from the company.

The Chamber of Commerce in a communication asked for the use of the high school auditorium for next Saturday for the purpose of entertaining members of the various granges in the county. The request was granted and the regular charge of \$7.50 will be asked for the hall.

Another communication was received asking for the use of the Auditorium next Tuesday when S. L. Tatham will speak on "Commission Form of Government." This request also was granted and the regular fee of \$7.50 will be charged.

Janitor Mitchell asked the board permission to purchase three new steam valves at the cost of \$29.00. This was granted. Mr. Mitchell also asked that the sewage system from the boiler room be improved, but this matter was referred to the committee in charge as there will be considerable expense attached.

BRITISH MERCHANT SHIPS ARE MANNED BY ENGLISHMEN

New York, Nov. 7.—British merchant ships entering and leaving the port of New York are being manned almost entirely by Englishmen who have already served in war and have been honorably discharged, according to the ship-visiting report of The American Seamen's Friend Society. This report, which was made public today by Dr. George Sidney Webster, secretary shows that in four months the ship-visiting staff of the society was in personal touch with practically 12,000 sailors attached to 81 different ships representing 12 steamship lines.

Although a very large number of the sailors in port are English subjects, there are also a great many from other lands. These men, according to the report, are largely either deserters from military service or are avoiding service by coming to this country. Many of these men are Greeks who contract for return voyage to British ports and desert their ship on this side without pay. This, according to Dr. Webster, is one reason for the noticeable shortage in the supply of seamen which many ships have suffered from when preparing for the return trip.

POLITICAL ROW IS RESULT OF NAMING MILITARY ADVISOR

Peking, Nov. 7.—Lieutenant-General Aoki's appointment by the Chinese government as military adviser has resulted in a bitter political row. Several members of the cabinet and a large faction in the parliament are endeavoring to clothe the new adviser with such power that he will be able to assign army officers to whatever command he desires. This effort is being stoutly resisted on the ground that it will make the army an organ for the advancement of Japanese interests in China.

GERMANY RESTRICTS
IRON SHIPMENTS TO
HOLLAND SHIPBUILDERS

Amsterdam, Netherlands, Nov. 7—
Dutch shipbuilders and the entire
metal industry have been much dis-
quieted by the recent restriction of
German exports of iron and steel to
this country. Shipbuilders are al-
ready experiencing a shortage in pro-
file steel and other raw materials,
and unless an improvement soon
comes they may, despite their over-
loaded order books, have to dis-
charge a part of their workmen.
Apart from the big demands made on
German industry by the manufacture
of munitions of war, the latest mea-
sure is ascribed in well-informed
quarters here to desire to hamper
shipbuilding in Holland now that a
part of the Dutch cargo space has
been acquired by the allies. In view
of the difficulties described, and the
anticipated scarcity of iron and steel
materials, the industrial commission
has approached the minister of in-
dustry and commerce with a view to
the erection of a state distribution
bureau in this country, and hope is
cherished that the threatened dan-
gers will be warded off.

IN MINNESOTA.
WILSON LEADS
EARLY TODAY

St. Paul, Nov. 8.—3 a. m.—When
returns from one-tenth of precincts
in Minneapolis had been tabulated
early today President Wilson was
leading Hughes by nearly 5,000
votes, the count for 301 of the 342
precincts being: Wilson 30,349;
Hughes 25,433.

MONSTER

CROWD CONGESTS TRAFFIC IN
DOWNTOWN STREETS WHILE
RETURNS COME IN.

Good Natured and Noisy Men and
Women Cheer Their Favorite
Candidate—No Disorder.

Newark came down town last
night.

That is nearly all of its citizens,
both old and young, swarmed the
downtown district, congested the
streets, delayed street car traffic,
hurrahed for their favorites, blew
horns, paraded, sang songs, "kidded"
each other over the election results
and at a late hour returned to their
homes set Big Ben and then relaxed
after months of weary struggling
with campaign issues.

The voting was out of the hands
of the people and up to the men in
the voting booths to determine who
had been the successful candidate to
lead his party for the next four
years.

It was a great crowd. Friendly,
good-natured and void of rowdiness.
Women both young and old, some
with babes in their arms were as in-
terested in the election results as
was the male contingent. Young
men with horns and in some in-
cidents augmented by old men, young
for the night, formed serenading
parties, danced the snake dance and
the "hula-hula."

The Arcade provided an excellent
place for the noise makers where
every sound added to the din. In
West Main street, the crowd was
dense from early in the evening un-
til long after midnight. The Advo-
cate's Associated Press wire service
kept the crowd on the jump to as-
similate the returns as they were
 flashed on a large screen in front of
the building.

In North Park place, the crowd
swarmed the street and sidewalk in
front of the McDaniel restaurant,
where a large screen had been placed
and upon which the returns were
received in addition to two Keystone
comedies being an hour and a band
concert by the famous Buckeye
band.

In the Arcade, Stewart Brothers-
Alward Company, placed bulletins in
their show windows. The Arcade
housed a large portion of the election
celebrators until a late hour.

At the various picture shows, all
of which were crowded, the returns
were flashed on the screen. To the
large crowd which packed its way to
the Auditorium to witness the
production of "Fair and Warmer,"
the returns were read from the stage
between acts by John Winthrop,
stage manager for the company.

The crowd in addition to "whoop-
ing up the town" demanded that it
be entertained and every amusement
place in the city catered to a capacity
business.

No extra patrolmen were needed
to handle the crowd and up until
early this morning, no arrests had
been made during the day or evening.
Patrolmen contented themselves with
keeping the streets open for traffic,
permitting the crowd to go the limit
in its enjoyment.

In a late hour a party from
Johnstown was placed under arrest
for speeding in an automobile. The
men furnished bond and were re-
leased.

During the early hours of this
morning, residents in the downtown
section at intervals were disturbed in
their slumbers by the war whoops of
the stragglers, who could not sur-
press one last and final "hurrah."

G. O. P. CHAIRMAN
ADMITS OHIO VOTE
WILL BE "CLOSE"

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., Nov. 8.—At 2
o'clock this morning, Republican
State Chairman Hatfield declared that
"the presidential vote in Ohio
will be close." He stated that he
believed Governor Willis will be re-
elected by from 35,000 to 50,000
votes and that Myron T. Herrick will
win over Senator Pomerene by about
the same vote. He had no definite
returns on the balance of the state
ticket.

WOMEN GIVEN
FRANCHISE AND
PROHIBITION WINS.

(ASSOCIATED PRESS TELEGRAM)
SIOUX FALLS, S. D., Nov. 8.—3 a. m.—
South Dakota yesterday gave its
electoral vote to Charles E. Hughes.
Adopted state wide prohibition, gave
women the franchise, elected two and
possibly three Republican congress-
men and a full republican state
ticket.

Cat Mint Courage.
The peculiar virtue of cat mint, one
of the ten varieties of mint, is prob-
ably unknown to town bred folk. "The
root, when chewed," says Mrs. F. A.
Bardwell in the Herb Garden, "is
said to make the most gentle person
fierce and quarrelsome, and a legend
is extant of a certain hangman who
could never screw up his courage to
the point of hanging till he had par-
taken of it."

Generous Boy.
"Oh, Effie, I ate your orange by mis-
take! But never mind; I'll give you
half of mine."—Life.

We bear our own burdens more eas-
ily when we help others to bear theirs.—
Mary A. Livermore.

Too Close.
"Why are you asking me for help?
Haven't you any close relatives?"
"Yes. That's the reason why I'm
appealing to you."—Birmingham Age-
Herald.

"I thought Katherine figured on
marrying Jack Hanson."
"She did; but another girl with
more money outfigured her."—Bos-

TAKE SALTS TO
FLUSH KIDNEYS

Eat Less Meat If You Feel Backache
or Bladder Troubles You—Salts
Is Fine for Kidneys.

Meat forms uric acid which excites
and overworks the kidneys in their
efforts to filter it from the system.
Regular eaters of meat must flush
the kidneys occasionally. You
must relieve them like you relieve
your bowels; removing all the acids,
waste and poison, else you feel a
dull misery in the kidney region,
sharp pains in the back or sick head-
ache, dizziness, your stomach sour,
tongue is coated and when the
weather is bad you have rheumatic
twinges. The urine is cloudy, full of
sediment; the channels often get ir-
ritated, obliging you to get up two
or three times during the night.

To neutralize these irritating acids
and flush off the body's urinous
waste get about four ounces of Jad
Salts from any pharmacy; take a
tablespoonful in a glass of water
before breakfast for a few days and
your kidneys will act fine and blad-
der disorders disappear. This fam-
ous salts is made from the acid of
grapes and lemon juice, combined
with lithia, and has been used for
generations to clean and stimulate
sluggish kidneys and stop bladder
irritation. Jad Salts is inexpensive;
harmless and makes a delightful
effervescent lithia-water drink which
millions of men and women take
now and then, thus avoiding serious
kidney and bladder diseases.

TO DARKEN HAIR
APPLY SAGE TEA

A few applications of Sage Tea and
Sulphur brings back its vigor,
color, gloss and youthfulness.

Common garden sage brewed into
a heavy tea with sulphur added, will
turn gray, streaked and faded hair
beautifully dark and luxuriant. Just
a few applications will prove a re-
velation if your hair is fading, streak-
ed or gray. Mixing the Sage Tea
and Sulphur recipe at home, though
is troublesome. An easier way is to
get a 50-cent bottle of Wyeth's Sage
and Sulphur Compound at any drug
store all ready for use. This is the
old time recipe improved by the ad-
dition of other ingredients.

While wispy, gray, faded hair is
not sinful, we all desire to retain our
youthful appearance and attractive-
ness. By darkening your hair with
Wyeth's Sage and Sulphur, no one
can tell, because it does so natu-
rally, so evenly. You just dampen a
sponge or soft brush with it and
draw this through your hair, taking
care to reach every strand at a time. By
morning all gray hairs have disap-
peared, and, after another applica-
tion or two, your hair becomes beau-
tifully dark, glossy, soft and luxuri-
ant.

This preparation is a delightful
toilet requisite and is not intended
for the cure, mitigation or prevention
of disease.

Proposing With a Splash.

One of the strangest courtship cus-
toms in the world is related in the
Tarascan Indians of Mexico in the Na-
tional Geographic Magazine.

The land of the Tarascans lies due
west of the City of Mexico, and here
the natives retain many of their prac-
tices which were well established
when the Spaniards first landed at
Vera Cruz. Here is the accepted
method of courtship, for example:

The lover goes to the spring where
the object of his affections is accus-
tomed to fill her water jar. He holds
her shawl until she accepts him, and
then with a stick he breaks the jar
which she holds on her head and
gives her a baptismal baptism of water.
According to Prescott, the Tarascans
had a Noah, called Trezpi, who es-
caped from a great flood in a boat
laden with animals. Instead of a dove
Trezpi sent out a vulture first and
then a humming bird, according to the
legend.

The Tarascans once possessed the se-
cret of tempering copper, an art now
lost to the world.

Killed by a Shout.

A joyful shout, thoughtlessly given
by an Italian smuggler on having
eluded the customs guards on the
Swiss frontier was the cause of his
six companions being killed by an ava-
lanche. The party, coming from the
Grisons, had, with a thousand precau-
tions, successfully negotiated the For-
cola pass, on the Swiss-Italian border.
Five of the men were loaded with val-
uable contraband goods, and two acted
as guides and scouts. When they were
all safely on Italian soil one of the
guides named Maretoli gave vent to a
joyful yodel. In the still air the least
sound causes a vibration which may
set enormous masses of snow moving.
This is what occurred here. A quarter
of a million tons of snow detached
itself from the mountain side and came
thundering down upon the party, who
were swept in an instant into an
abyss. Maretoli alone was able to ex-
tricate himself.

Malay Pearl Divers.

The Malay pearl divers are perhaps
the finest in the world. When he is
going to dive the Malay slowly lowers
himself down from the side of the
boat to the water and takes several
breaths, each breath getting deeper
and deeper. Finally he takes a tre-
mendously long breath, turns head
downward and plunges into the ocean
depths. In two, three, or perhaps, if
he is a very expert diver, in four min-
utes, his form is seen in the water com-
ing up. His face is turned upward.
His strong hands beat the water away
from under him in vigorous downward
sweeps. His face looks terribly
strained. At last, breathless, exhaust-
ed, he reaches the surface and is hauled
into the boat, where he lies quite still
for a few moments, apparently ex-
hausted. But in comparatively a few
minutes he is ready to plunge again.

Making Ready.

A Yorkshire collier repeatedly urged
his delicate wife to engage some one
to do the rough housework for her and
at last wrung from her a promise to do
so. On returning from the pit one after-
noon he found her scrubbing and
polishing the kitchen floor with all the
energy she could command.
"Hello, old woman, what's this
mean?" he questioned her. "Ah, thowt
this said the would call in somebody to
do t' hard work for thee?"
"Ah, lad, an' so Ah mean to," an-
swered his conscientious wife, "but Ah
thowt Ah'd make everything spick and
span before t' woman came, so's she
couldn't be goin' away an' tellin' t'
neighbors that she found t' house lost
t' dirt."—London Telegraph.

Late Breakfast.

"I guess," the farmer said to his new
boarder from the city, "I guess ye won't
want to get up very early in the morn-
ing, hey?"

"No, by heck," said the city chap,
with a laugh. "I think I'd prefer to
sleep late."

"All right," said the farmer. "In
that case, then, we won't have break-
fast till 4:30 a. m."—Washington Star.

Easy to Promise.

"How do you manage to keep your
cook so long?"

"My husband has promised her that
if she is working for us when westrike
oil he will buy her an auto."

"But I didn't know you had any oil
prospects."

"We haven't."—Houston Post.

They've Never Been There.

"The Gadder girls are seen every-
where."

"Not quite everywhere."

"No?"

"I dare say nobody has ever caught
them in the Gadder kitchen."—Bir-
mingham Age-Herald.

ROTARIANS VISIT THE STYRON-BEGGS COMPANY'S MODERN FACTORY

Fifty Newark business and professional men comprising the Newark Rotary club called in a body at the Styron-Beggs Company's factory after luncheon yesterday afternoon and spent an hour in inspecting that model plant.

The Styron-Beggs factory occupies 80,000 square feet of floor space having grown in twenty years from a small concern having 300 feet of room in a North Fourth street building. Today it has 15 salesmen covering twenty states and manufactures 140 different preparations under the famous "Great Seal" brand.

From the little 15x20 room at the corner of Fourth and Chestnut streets where the company began business in 1896 the factory was moved to the Swisher building. After its growth demanded more space, the business was taken to the Miller block opposite the high school and from there to the Globe House and then to South Fourth street. In August of this year the Styron-Beggs Company bought and took possession of the Harry Swisher modern fire-proof factory on South Fourth street. A more convenient, more sanitary, more complete factory building can not be found anywhere. It is equipped with every convenience, not the least of which is the light on stories and basement, one building is 50x200 and the company owns a lot 50x200 which provides for future growth.

The visitors saw the force at work making vanilla extract, packing epsom salts, ammonia and turpentine. Vanilla beans are imported from Mexico and are put through a process that requires twelve months before the extract is ready to market. First the vanilla blossom was seen then the bean itself. Mr. Beggs explained the methods of curing the beans, and a machine in operation was seen chopping and macerating the beans. On another side of the room the percolators were at work and in an adjoining space were the storage tanks. In one section of the factory neatly dressed girls were packing epsom salts. In this operation a machine weighs, fills and packs the salts in one-half pound cartons at the rate of 35 packages a minute. On another floor a force of employees was busy filling ammonia and turpentine bottles at the rate of 42 bottles a minute. The greater part of the work is done by machinery. The plant normally employs 60 people but at present owing to the difficulty in obtaining bottles the force is somewhat smaller.

The absolute cleanliness of the factory and the neat appearance of every person connected with the work impressed the Rotarians. Like the famous National Cash Register factory at Dayton, the Styron-Beggs plant is so clean that one might use the floor for a dining table without worrying about it.

This concern puts out all sorts of extracts and grocers' drugs—140 varieties—while the celebrated Heina makes only 57.

Frank L. Beggs is president and general manager of the company. In fact it was Mr. Beggs who built the business up from a small beginning to its present prosperous proportions. Mr. Beggs is also president of the Chamber of Commerce, president of the Masonic Temple Company, trustee of the City Hospital, trustee of the Y. W. C. A. and is connected with other enterprises of the city. He is a thirty-third degree Mason, a "good fellow" and a splendid citizen. For years he was president of the Newark board of education. The vice president of the Styron-Beggs Company is Mr. E. S. Styron, the secretary Mr. L. P. Shinn. These men with Mr. H. E. Harrison and Mr. L. S. Beggs constitute the board of directors.

dropped from a height of several hundred feet within sight of thousands of spectators who attended the exhibition. The pilot wore a heavy safety helmet, and escaped with slight injuries, but Miss Chiang wore no helmet and sustained concussion of the brain.

The aviation meet continued for two days, and attracted immense crowds from all over North China. Ten army aeroplanes participated. Flights were made both in biplanes and monoplanes by Chinese aviators, who showed great skill. Most of the aeroplanes used were built by the Chinese under the direction of French mechanics. Tom Gun, an American-born Chinese, who has gained considerable fame as an aviator, has been engaged as an instructor in the Chinese army aviation school.

The Nanyuan aviation ground is located about 10 miles from Peking. During the meet aeroplanes flew over the Chinese capital every morning and every afternoon, attracting much attention and causing not a little uneasiness among superstitious coolies, who regarded them as evil omens.

LACE INDUSTRY IN PHILIPPINES IS BOOSTED BY WAR
Manila, Nov. 7.—The European war and the consequent closing of the European sources of production of embroideries and laces has given a tremendous impetus to this industry in the Philippines. Before the war it had already reached large proportions in Manila and the provinces, the public schools were giving it their attention in an effort to train girls in the art of producing fabrics which would meet commercial needs, and American commercial interests and established agencies here.

The war has increased this business to such an extent that it is seemingly impossible to meet the demand. At present more than 20,000 women in Manila alone are employed in shops and home on fine embroidery and laces and the monthly payroll is in excess of \$100,000 a month.

ENGAGED TO SOLDIER WOMEN ENTITLED TO BE CALLED "FRAU"
Karlsruhe, Baden, Nov. 7.—The authorities of the grand duchy of Baden have found a welcome solution to the problem that has long bothered them of how to address women whose fiancés have been killed in the war, and who regard themselves as wedded even though no ceremony ever took place.

By order of the grand duke to the ministry of justice such women are entitled to call themselves and to be called "frau" instead of "fräulein" if they can establish satisfactorily that they were engaged, with earnest intention of being married, to men who have been killed in the war or who are reported as missing for a specified length of time.

CHINESE GIRL IS INJURED IN FIRST AERO EXHIBITION
Peking, Nov. 7.—Miss Chiang, the daughter of General Chiang Tsing, a member of the Chinese general staff, was dangerously injured in an aeroplane accident at the first public exhibition of the army aviation corps recently held at Nanyuan near Peking. She made the flight with Pilot Yao, one of the best aviators in the Chinese army. Adverse air current interfered with the manipulation of the machine, which

NOTICE TO PUBLIC

By Licking County Life Underwriters Association—Be Sure to Heed This Warning.

The out-of-town representatives of a Western Life Insurance Company are operating in Newark and Licking County, and grossly misrepresenting their contracts of insurance to the public. Their working slogan seems to be "anything to get the business and get away with it," and they don't live in Licking County and can not be held accountable in the future for their misstatements.

Here is a sample of the misstatement: In one specific instance they quoted a whole life rate to a prospective purchaser and represented it to him that the policy would mature in sixteen years. Such statement as this is absolutely untrue, and had it not been called up the same man the out-of-town would have got the application, and great disappointment would have been in store for the insured in the future, and a straightforward life insurance man would have been discredited. Wilson's Re-election Is Indicated in Late Report on the Vote

National Committee Chairman Is Claiming Wilson Will Have More Than 300 Votes in Electoral College—General Result Over Country Favorable to Democrats

UTAH AND KANSAS ARE SWUNG TO DEMOCRATS

Returns Up to Last Midnight Favored Hughes and His Election Was Announced By Many Republican Papers—Later Reports Made the Outcome Doubtful and As New Figures Were Announced Trend Was More Favorable to Re-Election of President Woodrow Wilson

The latest election returns this afternoon point to the re-election of President Wilson by a safe majority of the electoral college, to the election of James M. Cox, Governor of Ohio and Atlee Pomerene senator from Ohio. Wilson carries Ohio by 60,000 to 80,000 according to the day's returns.

Utah for the first time elects a Democratic governor and gives its electoral vote to Wilson.

Kansas has swung into the Democratic column and West Virginia, Nebraska and several far western states whose returns are incomplete are claimed by the Democrats.

Chairman McCormick and Walsh both positively declare that Wilson has been re-elected but this is denied by the Republican chairman who says Hughes has won. Mr. McCormick names the states which he says will give more than enough electoral votes to elect Wilson. Incomplete returns make it impossible to state with accuracy Governor Cox's majority but Chairman Finley says it will be ample. There are no figures available on the circuit judgeship as yet.

Owing to the conflicting claims and to the incomplete returns, it is impossible at this hour to announce the result with certainty. The Associated Press makes no prediction but gives the figures and the headquarters' statements for what they are worth.

Late this afternoon returns indicate that Indiana may go Republican.

MORNING REVIEW.

(Associated Press Telegram)
New York, Nov. 8.—The result of the election still was officially in doubt early today with a decided drift toward the re-election of President Wilson.

Upon a dozen doubtful states from which the returns are slowly coming depends whether Mr. Wilson has been re-elected or whether the next President of the United States will be Charles Evans Hughes. Chairman of both national committees claimed handsome majorities in the electoral college for their candidates but the actual figures early today made good the claims of neither. They did, however, show a steady trend toward President Wilson all through the west.

Aside from the uncertainty of the result, the most remarkable thing about the election was the sudden wiping out of the Hughes majorities piled up in the east by the returns coming in from the west. When the Republican landslide in New York became known and was quickly followed by the heavy Republican victories in New England, there was a veritable stampede to announce the election of Mr. Hughes and the defeat of President Wilson.

Hundreds of thousands waiting in the streets saw the signal lights flash the defeat of the President. New York newspapers which have been prominent in their support of him, conceded the President's defeat even before some of the western states had been heard from. Thousands of persons in the east went to bed believing Mr. Hughes elected and woke up this morning to find the result apparently changed while they slept. Hundreds who made their plans for what they expected to happen in Wall street today found them set all awry.

The first figures of a Wilson majority through the west did not shake the confidence of those who were predicting the election of Mr. Hughes and not until the steady stream of Wilson majorities began eating the Hughes column the Hughes column piled up in the east did any of them suspect that the result was in danger.

After midnight it was apparent that the free predictions of a sweeping Republican victory throughout the country were being contradicted by the results from the west. As every hour saw the Hughes lead melting down, it became clear that the President was not to be defeated so easily and then at daybreak with-out any decisive result, it became apparent that the battle was being fought out in the doubtful states with the advantage decidedly in favor of Mr. Wilson.

Not since a next day's revision of the returns sealed Grover Cleveland in the contest of 1892 has the country been compelled to wait so long to know the result.

More than twelve hours after the polls closed President Wilson and Mr. Hughes were running a neck and neck race in doubtful states. Congress returns were equally

uncertain but on their face at 8 a. m. today the Republicans had not been able to overthrow the Democratic majority, although they did succeed in reducing it in the house. In the senate the Republicans appeared to have gained seven seats. Despite the lack of certain returns from the states which will turn the scale of victory or defeat, neither of the national chairmen hesitated to claim the election.

Democratic Chairman McCormick, in a statement today declared President Wilson surely would have 304 votes in the electoral college. Republican Chairman Willcox this morning claimed every state generally classed as doubtful and counted 323 votes for Mr. Hughes.

The actual returns, considering definite and indicative figures, gave President Wilson 232 votes and Mr. Hughes 212.

On the votes of California, Delaware, Idaho, Indiana, Kansas, Minnesota, New Hampshire, New Mexico, Oregon, Washington, West Virginia, and Wyoming, the decisive result of the presidential contest turned.

There seemed to be no doubt that President Wilson had safely carried Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Utah, and Virginia.

In the Hughes column, were counted Connecticut, Illinois, Iowa, Maine, Massachusetts, Michigan, New Jersey, New York, Pennsylvania, Rhode Island, South Dakota, Vermont and Wisconsin.

From the doubtful states the returns continued to point first toward one candidate and then toward the other, but toward morning there was noticed a steady drift toward President Wilson.

When word went over the country that President Wilson had been defeated the Republican hosts were jubilant. Although New England returns supported the predictions of a Republican victory as the ballot counting started in the middle west and on the coast, it dawned on those assembling the vote here that President Wilson was far from defeated, that the Hughes landslide was only confined to the east and that in the states which will make up the majority in the electoral college a very close race was being run.

Other presidents have been elected without New York and some of so-called pivotal states. Hayes lost New York and Indiana and five other states but was seated in his close contest. While Cleveland carried New York in each of his successful contests he lost in one or the other of them, Indiana, Massachusetts, Ohio, Michigan and Pennsylvania.

So, as soon as the Wilson majorities began piling up toward the west, it became apparent that political history was repeating itself. Never at any time did Democratic headquarters recede from its claims of President Wilson's election.

Chairman McCormick at one time got his estimate of the president's majority in the electoral college down as low as two, but with the encouraging returns from the west he promptly raised it again. The Hughes managers, however, were reasonably confident that the unreported votes would put their candidate in the lead.

Intertwined with perplexing questions affecting the country's foreign policy and coming at one of the critical junctures of world affairs, the election was generally regarded as surrounded with more critical interest than any other since the civil war. It was the first time in nearly a generation that the Democratic party, after a term in control of the country, was fighting to keep its place and against the forces of a reunited Republican party.

UNPRECEDENTED DOUBT.
New York, Nov. 8.—With the country's choice of a president in the almost unprecedented state of doubt on the day after election both Democratic and Republican headquarters were scenes of nervous activity and tension. Although both sides claimed majorities in the electoral college, there seemed nevertheless to be a feeling at both places there was a chance that the determination of the final result with so many states doubtful might be prolonged perhaps for another day and there was some unofficial talk that the decision

312 ELECTORAL VOTES CLAIMED FOR PRES. WILSON

(Associated Press Telegram)
New York, Nov. 8.—Democratic Chairman McCormick said early this afternoon that when the count is finished Wilson will have more than 300 electoral votes. He added that his advice was that West Virginia had gone Democratic by 10,000. Mr. McCormick says: "I am basing my conclusion on the official canvass of pivotal states. It is a sweeping victory."

(Associated Press Telegram)
New York, Nov. 8.—Early this forenoon Chairman McCormick of the Democratic national committee gave out the following list of states with the electoral vote, a total of 312, which he claimed for the President:

Alabama 12, Arizona 3, Arkansas 9, California 13, Colorado 6, Delaware 3, Florida 6, Georgia 14, Idaho 4, Indiana 15, Kentucky 13, Louisiana 10, Maryland 13, Minnesota 12, Mississippi 10, Missouri 18, Montana 4, Nebraska 8, Nevada 3, Nevada 3, New Hampshire 4, New Mexico 3, North Carolina 12, Ohio 24, Oklahoma 10, South Carolina 9, Tennessee 12, Texas 20, Utah 4, Virginia 12, Washington 7, West Virginia 8, Wisconsin 13 and Wyoming 3.

KANSAS.
(Associated Press Telegram)

New York, Nov. 8.—Despite the uncertainty of the result of the general election the stock market opened today with strong broad and active undertone in which some new high records were registered.

WILSON 10,000 AHEAD.
Kansas City, Nov. 8.—Returns from 1,074 out of 2,474 precincts in Kansas give Wilson 245,863; Hughes 146,527.

COUNTY

Democratic Ticket Elected
With Exception of Patton
for Sheriff

LOSES OUT BY 119 VOTES

President Wilson Given Plurality of Nearly 2,400 In This County and Many of Candidates Ran Close to That Mark—Close Races Develop Easy Pace for Democrats

With the exception of R. L. Patton for sheriff, Licking county Democrats yesterday elected every officer on the county ticket by safe majorities. Patton was defeated by Sheriff Charles Swank by a majority of 119 votes, five more than the majority scored by Swank over Mr. Patton in the election two years ago.

Mr. Patton's friends were reluctant to give up the single candidate on the Democratic ticket but unless important changes are made in the official canvass of the county vote his defeat must be conceded.

All returns were in the hands of the county election board by nine o'clock this morning and at that hour the Advocate had the figures tabulated and the tedious work of totaling the long columns of figures was started.

The work failed to change the general result. President Wilson carried the county by the large plurality of 2382. Governor Cox's majority was cut to 971.

The race for clerk of courts which appeared to be close as the later returns were received shortly after midnight, soon developed a safe majority for Leo T. Davis. He had 300 over Michael Sachs.

Messrs. Butt, Lake and McCracken were easily elected county commissioners though at times the vote was running too close for comfort.

Fred S. Wilson for County Auditor registered a splendid vote, running slightly ahead of President Wilson. His majority over Campbell was 2,386.

Will H. Miles for county treasurer also made a splendid race. He received 2755 more votes than Thos. E. Adams.

The race for prosecuting attorney was another surprise in the final result. C. L. Flory and J. W. Horner seemed to be running neck and neck as the returns came in after midnight. Final precincts however, turned what appeared to be a close race into an easy victory for Mr. Flory who got a majority of 403.

Robbins Hunter was elected Probate Judge. The vote: Hunter, 6,041; Smythe, 5,052; Scott, 4,580; Mitchell 3,195.

W. A. Ashbrook was re-elected by over 7,000 in the district.

J. H. Miller was elected State Senator by a splendid majority.

W. D. Fulton of Newark has been elected secretary of state. The figures show that he is running well with the state ticket.

PRESIDENT

RESERVES JUDGMENT AFTER
HEARING THAT RETURNS
SHIFTED IN HIS FAVOR

(Associated Press Telegram)
Long Branch, Nov. 8.—A confident group of men including Secretary Tumulty waited today for more returns from yesterday's election after having been up all night in the executive offices at Ashbury Park, N. J., with their hopes slowly rising as more complete returns from western states came in.

President Wilson, who retired late last night was up shortly before 5:00 o'clock and was immediately notified of the shift in his favor in returns received during the night. He expressed pleasure but reserved judgment.

While Secretary Tumulty and other members of the president's official family believed this morning that the president had been re-elected they issued no statements.

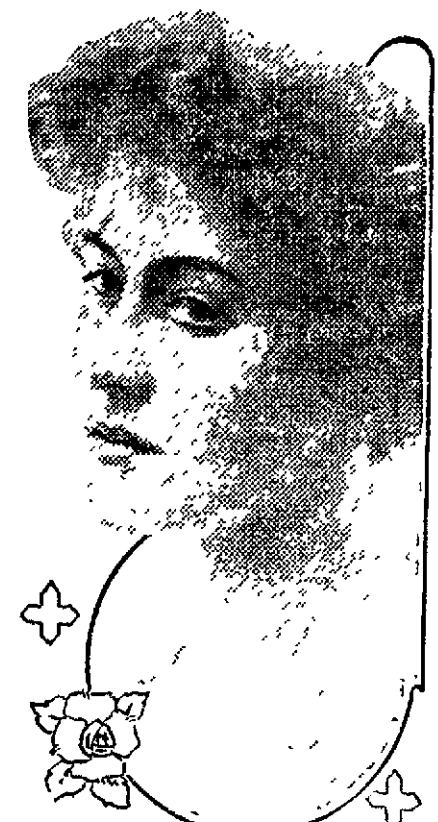

The president had no definite plans for today and expected to remain almost continually at Shadow Lawn reading returns.

KANSAS IN LINE FOR MR. WILSON

(Associated Press Telegram)
Kansas City, Nov. 8.—Kansas scratched its heels yesterday and gave President Wilson a vote which on returns from slightly less than half the precincts in the state showed the President leading by more than 5,000.

The state re-elected Governor Arthur Capper, Republican, by a majority convincingly placed at 100,000. A Republican state ticket was elected almost in its entirety.

FORMER N. Y. GIRL IN LONDON SOCIETY

Lady Acheson.

Lady Acheson, a prominent figure in London society, was formerly Miss Mildred Carter of New York. Like so many other members of her set she is enlisted in work for war sufferers.

ASHBROOK HAS 7000

Congressman Ashbrook's plurality in the seventeenth district will no doubt exceed 7000. In Ashland he received 3984 to Porterfield's 2579. He carried Coshocton by about 1200, Licking by 3023, Knox by about 500, Richland by about 1500 and will lose Delaware by about 200. Two years ago Mr. Ashbrook lost Delaware county by 163 votes.

WILCOX CLAIMS CALIFORNIA AND MINNESOTA REP.

(Associated Press Telegram)
New York, Nov. 8.—Chairman Willcox of the Republican national committee at 12:50 o'clock issued this statement:

"California and Minnesota are surely for Hughes. This means Hughes is elected." These two states have 13 and 12 electoral votes respectively.

The statement he said, was based upon advices from the respective state headquarters, claiming California by 10,000 votes and Minnesota by 70,000. Chester H. Powell telegraphed from San Francisco that the Republicans could concede everything that the Democrats claim and still carry the state by 6,000.

FIVE STATES DRY IS "ANTI'S" CLAIM; 24 STATES IN LINE

(Associated Press Telegram)
Columbus, Nov. 8.—Headquarters of the Anti-Saloon League at Westerville, a suburb, today reported it had information that the dry forces had won statewide prohibition fights in five states at yesterday's election. The states named were Michigan, Montana, South Dakota, Utah and Nebraska — Michigan by 80,000. Superintendent White of the Ohio league said today that he had no information as to the wet and dry makeup of the next Ohio legislature. With the addition of these five states there are now 24 states, one-half the Union, in the dry column.

WILSON WILL HAVE 23,000 MAJORITY FROM KENTUCKY

(Associated Press Telegram)
Louisville, Ky., Nov. 8.—Democratic headquarters this morning claimed a majority in Kentucky of 23,000 for President Wilson, while Republican leaders concede his majority in the state would reach at least 10,000.

The latest available returns were incomplete as regards the more remote mountain sections. Nine Democratic and two Republican congressmen were elected. No figures indicative of the size of the prohibition and socialist vote in the state were available.

REPS GIVE UP HOPE.
(Associated Press Telegram)
Columbus, Nov. 8.—Republican State Chairman Charles S. Hatfield at noon today conceded the state of Ohio to Wilson by 75,000 plurality said he believed Herrick for senator was defeated by 15,000 and was making no claims as to the Willis-Cox vote. He did not concede the election of Cox.

"Don't Worry About Ohio," Is Message to National Chairman

Pre-Election Claims of 100,000 for Wilson Might Be Fulfilled, Said State Chairman Finley This Morning; Former Governor Cox and State Ticket Are Safely Elected

COX GETS 10,000 OVER GOV. FRANK B. WILLIS

With About 1,000 Precincts Yet to Report President Wilson Has 69,000 Plurality—If Ratio Continues His Lead Will Pass 80,000—State Chairman Hatfield, Rep., Conceded State Is Wilson By 75,000—Admits Herrick's Defeat By 15,000 But Did Not Concede the Election of Cox

(Associated Press Telegram)
Columbus, O., Nov. 8.—"Don't worry about Ohio; Wilson has carried this state decisively. Senator Pomerene re-elected, likewise Democratic state ticket."

Democratic State Chairman W. L. Finley wired this message to National Chairman Vance McCormick today.

Finley also wired Pomerene congratulations telling him there was no doubt of his re-election.

When the votes are all counted Finley said he would not be surprised if his first predictions of 109,000 plurality for Wilson in Ohio were fulfilled. He figures Pomerene to win by 25,000 to 30,000 and Cox with slightly less pluralities.

Telegrams were received by Chairman Finley from National Chairman McCormick advising him to guard the ballots closely and if necessary employ best democratic lawyers and spare no expense to insure correct count. In view of the pluralities of the Democratic candidates in this state Finley did not consider the national chairman's admonition applied here.

(Associated Press Telegram)
Cincinnati, Nov. 8.—With 3688 precincts out of a total of slightly more than 5570 heard from, President Wilson early today has a plurality in the state of Ohio of 46,269, and if the present ratio continues he will carry the state by approximately 70,000.

James M. Cox, Democratic candidate for governor, is leading Frank B. Willis, Republican, incumbent, with 3751 precincts heard from. In the race for the United States senatorship, Atlee Pomerene, Democratic incumbent, is leading his Republican opponent, Myron T. Herrick, former Ambassador to France, by 12,620 votes, with 3,576 precincts heard from.

W. L. Finley, Democratic state chairman, early today declared that Cox and Pomerene would be elected.

PRESIDENT KEPT EARLY LEAD IN STATE OF OREGON

(Associated Press Telegram)
Portland, Ore., Nov. 8.—Oregon was still in the doubtful column shortly before daybreak today with President Wilson maintaining a 400 lead on the face of incomplete returns from 30 out of 34 counties. Republican leaders claimed that sections yet unheard from were strong Hughes centers and would swing the state.

CALIFORNIA'S VOTE IS CLOSE; WILSON LEADS

(Associated Press Telegram)
San Francisco, Nov. 8.—Returns available early today indicated that the contest between Wilson and Hughes in California was so close that an official count might be necessary to determine the result. With 2,172 precincts in various parts of the state out of a total of 3,917 accounted for the president was leading by about 700 votes.

LEAD IN KANSAS FOR MR. WILSON INCREASES SLOWLY

(Associated Press Telegram)
Kansas City, Nov. 8.—President Wilson's lead in Kansas increased slowly as more returns were received today but with half state in and many rural counties yet to be heard from it was considered impossible to place the state definitely in the column of either party.

The Kansas City Star, which has been supporting Hughes, concedes Kansas to Wilson by 15,000.

With complete returns from 1,224 of the 2,474 precincts in Kansas, President Wilson had received 170,890 and Hughes 157,773 votes, states.

by 32,000 pluralities. He also declared that the entire Democratic state ticket had been successful.

At Republican state headquarters it was conceded that Wilson had carried Ohio, but Chairman Charles Hatfield at 5 o'clock this morning declared that Governor Willis, Mr. Herrick and the entire Republican state ticket had been elected. He said he based his statement upon the precincts heard from and the normal Republican pluralities in the majority of precincts still to be heard from. The majority of precincts heard from early this morning included Hamilton (Cincinnati) practically complete but did not include a majority of the precincts in the other large cities and counties of the state. A majority of the remaining outstanding vote, however, included the rural counties.

Cuyahoga county gave Wilson a plurality of approximately 20,000, more than offsetting the 12,000 plurality that Hughes rolled up in Hamilton county.

Montgomery, Lucas, Franklin, Mahoning and Summit counties all rolled up Wilson pluralities ranging from 2,000 to 8,000.

At an early hour this morning five congressional races in the state remained in doubt. There were in the Fourth, Sixth, Eighth, Eleventh, and Fifteenth districts. Of the seventeen definitely decided the Democrats had obtained nine seats and the Republicans eight. Heintz, Republican, won out in the Second district and will take the seat occupied by Allen, Democrat. This Republican gain, however, was offset by the election of Snook, Democrat, over Matthews, Republican incumbent in the Fifth district. The Democrats picked up a congressman in Bathrick in the Fourth district when he defeated Williams, Republican incumbent. As a rule, the state ticket followed along the vote for governor and senator and it was yet too early with the meagre returns available to complete the complexion of the state senate or the house of representatives.

WILSON HAS 304 VOTES, SAYS WALSH

(Associated Press Telegram)
Chicago, Nov. 8.—Senator Walsh, manager of Western Democratic national headquarters, declared today at noon that he was positive that President Wilson had been re-elected by at least 304 electoral votes or 38 more than the number required. He received reports from party leaders in every doubtful state in the western territory today. After tabulating these latest figures he declared that President Wilson had surely carried these western states: Montana, Utah, Colorado, Nevada, New Mexico, Nebraska, Idaho, Arizona, Washington, Missouri, Kansas, Minnesota, California, Wyoming and North Dakota.

"Complete returns will show that President Wilson has carried a majority of the western states which will elect him with 304 electoral votes," said Senator Walsh.

"In some of the states the vote is close but our latest reports show that we have won."

Hughes Gets News at His Breakfast

(Associated Press Telegram)
New York, Nov. 8.—Charles E. Hughes awoke at 8:00 o'clock this morning after sleeping nearly seven hours and a minute later was reading the newspapers and latest election dispatches from doubtful states.

Chairman Willcox communicated with the nominee and declared belated reports were reassuring. Mr. Hughes adhered to his determination of last night to make no comment and issue no statement until the result was beyond doubt. He breakfasted with Mrs. Hughes and their three daughters. Newspapers were propped in front of them all and the meal was frequently interrupted to read the latest reports from doubtful states.

J. H. MILLER IS SENATOR ELECT IN THIS DISTRICT

Early reports from Muskingum county pointed to the election of William M. Miller, Republican, of Dresden, for state senator, Zanesville having sent out dispatches claiming W.

J. HENRY MILLER.

M. Miller had carried Muskingum by 1200 to 1500. Revised reports at noon reduce the number to about 400.

J. Henry Miller of Newark, for senator carried Licking by 2219. Perry gives about 100 for W. M. Miller and Delaware gives approximately 200 for W. M. Miller. The incomplete figures this afternoon therefore indicate strongly the triumphant election to the senate of Henry Miller.

States for Hughes

(ASSOCIATED PRESS TELEGRAM)
Chicago, Nov. 8.—After receiving the latest returns from party leaders in a number of doubtful states in the midwest and west today, Alvin T. Hart, manager of Republican headquarters claimed that Hughes and Fairbanks had carried Indiana, North Dakota and California and Minnesota and that the Republican national ticket had won with at least 272 electoral votes or six more than the required number.

WILSON'S LEAD CUT.
(ASSOCIATED PRESS TELEGRAM)
St. Paul, Nov. 8.—Returns from the rural districts shortly after noon today decreased President Wilson's early lead over Hughes in Minnesota, 1,029 of the 3,024 precincts in the state giving Wilson 92,066; Hughes 83,144.

NEW YORK "KIDS" ON THANKSGIVING

ON Thanksgiving day the visitor to New York city, especially if he extends his observations to the poorer districts of the city, is much amused and interested by the ragamuffins who form a quaint and distinctive part of the city's celebration of the day. These ragamuffins are youngsters of both sexes who dress in all sorts of queer and elaborate costumes and parade the streets.

There is no concerted general parade, but merely local assemblages, seldom over ten or twenty in number. Most of the groups are smaller. To "dressing up" the ragamuffins often add begging for small coins, fruit, candy, etc., and it is this feature of the annual masquerading that has led in recent years to a demand for its suppression. Often New York parents will give permission to their children to masquerade, but they add strict injunctions against begging. They are willing to let Johnny or Jennie enjoy the day in the ancient, time honored manner, but they set their faces against mendicancy. "You may dress up and go out, but you mustn't do any begging," is the order.

Many of the young ragamuffins find their greatest joy in arraying themselves in the clothing of the opposite sex. Half grown boys trail long skirts behind them or imitate the fashion when it calls for short skirts. And the hats they wear are wonderful and fearful creations. The little girls like to don trousers and discarded men's hats. Often the boys and girls black their faces, but not many masks are seen. Well known characters are frequently imitated, and in the recent past a certain "movie" comedian with a funny

A FUNNY RAGAMUFFIN.

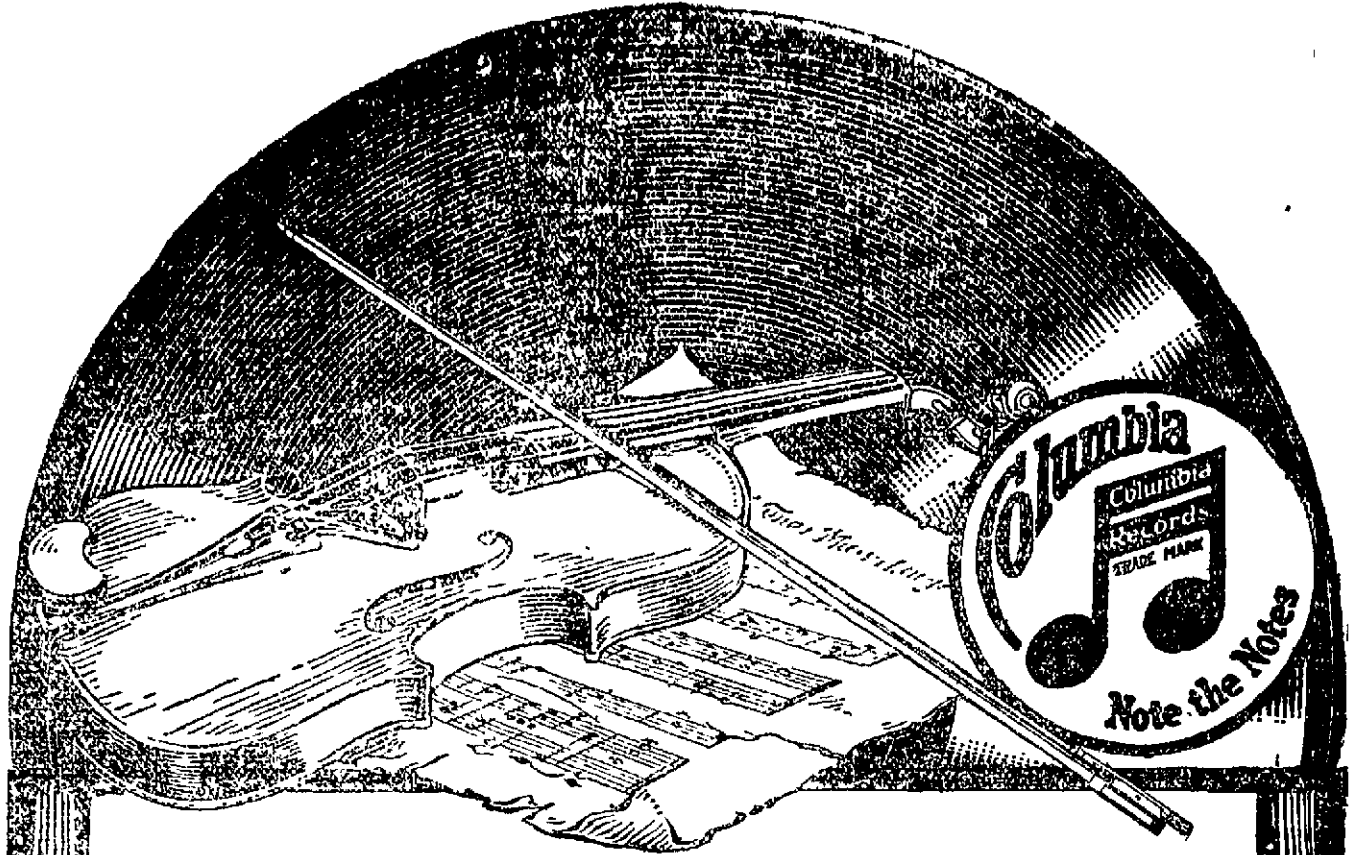

walk and a laughable little mustache has been much in evidence on Thanksgiving day in the New York streets.

This Thanksgiving mummery in New York, which is not found in any other city, is a local custom, dating back several decades to the old target companies which used to shoot for prizes. They were ward bodies in the days before the districts known as wards were abolished. On Thanksgiving day these target companies assembled and paraded from house to house, visiting the prominent men of each ward. These men, city officials, judges, politicians, etc., gave prizes which were shot for later in the day, and the day's festivities wound up with a ball. The target companies were succeeded by companies of men called "ragamuffins" or "fantasticals," who dressed in fantastic garb on Thanksgiving day. These adult ragamuffins have now been succeeded by the youngsters who "dress up."

In a recent letter an old New Yorker writes thus of the ragamuffins: "I was interested in reading your article on the subject of the Thanks giving day mummery, and I am rather surprised that some ancient person in the Greenwich village could not give you some information as to the origin of the custom, which, as far as I know, is local to New York."

"In my boyhood in the early seventies there used to parade through the streets on Thanksgiving day bands of grown men, some on foot, some on horseback and others in the two wheeled butcher carts of the day, clad in eccentric and fantastic clothes. These bands or companies called themselves the 'fantasticals' and were called by the people of the street the 'ragamuffins.' They paraded in a spirit of merriment or less gloom and were received with good nature and amusement."

"I used to be told by my elders that the fantasticals paraded in derision and mockery of the militia parades of the time, but their humor was probably leveled against the militia of an earlier date and possibly in memory of the general muster and training of a still earlier day."

New York, Nov. 8.—With the presidency in doubt this morning the political complexion of congress also was undecided and party leaders were anxiously awaiting complete returns before definite claims could be made. Although it appeared that the Democrats would retain control of the senate without question by a reduced majority.

With nearly a hundred congressional districts still in doubt the Republicans had made a net gain of six, capturing fifteen Democratic districts with the Democrats when the returns were made. The Democrats would retain control of the senate without question by a reduced majority.

Practically complete returns showed that the Democrats certainly have lost four United States senators, one each in Maine, New York, New Jersey and Maryland while they gained one each in Rhode Island, Delaware and Utah. Indications pointed strongly to a further Democrat loss of two senators in Indiana, one in West Virginia and Arizona and possibly one in Montana. To offset this in the possibilities the election of Republican senators in Wyoming and New Mexico had not been assured. If the Republicans and Democrats should lose all these as indicated the senate still would remain Democratic by two, 49 Democrats to 47 Republicans. The Democratic majority in the present senate is 16.

The most surprising development in the senatorial contest was the defeat of Senator Henry F. Lipsett of Rhode Island by Peter Gooley Gerry, Democrat, as the state otherwise went Republican.

Police Want to Know if Dain is Dead or Alive

Zanesville, Nov. 8.—Zanesville authorities are trying to solve the mystery whether the body of Robert L. Dain of Emporia, Kas. is in the Muskingum river or whether the man is alive and well. Dain was on his way to visit friends in Norwich. Early Tuesday morning trainmen found a suitcase and a bundle of clothing in the middle of the C. & M. V. bridge. Bloodstains and a handful of gray hair were also found on the tracks. In the suitcase was a letter addressed to R. L. Dain. The police are working on the theory that Dain was crossing the bridge when he was struck by a train and knocked into the river below.

THAT CLEAN TABLECLOTH.

What's It For, Anyway, but to Go on the Table and Get Soiled?

"Why," demanded the occasional grumbler in the tone of one who not only did not expect, but would not tolerate, an answer, "should a clean tablecloth be the most sacred thing about a fairly average family household? A clean tablecloth is not laces or penates, either or both. It's just a rag that has managed to get through the laundry in good shape. It can go through again in just as good shape—or just about as good, and, for that matter, if worse came to the worst, as your wife generally expects it to, it could be replaced without disturbing the quotations on international exchange.

"But a woman never thinks about that. To her a clean tablecloth is a thing to be worshipped, not a thing to be eaten off of, and it never occurs to her that no magic can bless it with semipiternal cleanliness. It's got to get dirty sometimes. Why not now? Nothing to it. If you overdo the gravy from the meat platter, which through no fault of yours has been filled too full, or if you happen to decorate the immaculate splendor of the cloth with a nice red polka dot of cranberry juice you're in bad for the rest of the day and maybe longer.

"Of course when such things happen the tablecloth is only serving the purpose for which it is put there, but that's no excuse. 'You ought to be more careful.' This comes across the table in no uncertain tones. But it isn't in the nature of news, because you've heard it plenty often before.

"I say it is the business of a clean tablecloth to get dirty and get washed and get dirty and get washed and get dirty and get washed. But what I say doesn't make any difference. I get in so bad every time a new tablecloth is sprung at our house that in my love for the comfort of dirty ones I am becoming slovenly in my habits. So what I say is this: Either you ought to be affluent enough to have a clean tablecloth every meal or two or three times a meal if necessary or desirable or you ought to be humble enough to be content to eat off of an old cloth covered table that can be swabbed off without damage or distress of temper."—Indianapolis News.

Your Burdens.

No man ever sank under the burden of the day. It is when tomorrow's burden is added to the burden of today that the burden is more than a man can bear.—George Macdonald.

Not as It Sounded.

Dr. F. Osmond Carr tells a story of how, seeing one of his own operas advertised for performance at Harrogate while he was on a visit to that resort, he went in to see the performance. Before the curtain rose an aged invalid was carried into the front row of the stalls by stalwart attendants and left there. The composer was gratified to see how the invalid led the applause after every number, thumping vigorously with the stick with which he had been provided.

During the first intermission, however, the thumping was continued, and

MGE. MOSSEER IS IN MT. VERNON FOR AN ADDRESS

Manager George H. Mosser, of the Chamber of Commerce and three representatives of the Ohio Light & Power Company, this morning motored to Mt. Vernon, where they will be the guests of the Mt. Vernon Chamber of Commerce at a noonday luncheon. Mr. Mosser has been sent to address the Mt. Vernon men at the luncheon.

Martinsburg Man Trapped By Fire; Leap Saved Life

Martinsburg, Nov. 8.—Thomas L. Pumpfrey, local blacksmith, has returned home from a trip to Detroit, Mich., and Walkerville, Canada. In the latter place he had a thrilling experience. Friday evening Mr. Pumpfrey occupied a room in the Canadian Club building, which was totally destroyed by fire. He escaped by jumping from an upper story window to a roof below and was taken from that point by firemen. Pumpfrey had attempted to leave his room by way of a hall, but was forced back by flames and smoke. He threw his suit-case out of a window, but was unable to find it after he was assisted to the ground. All other persons in the building escaped.

HIGH SCHOOL AUDITORIUM. Daughters of Veterans Concert.

An interesting and delightful musicale has been arranged by the Daughters of Veterans, for November 13-14, when they bring to Newark a trio of accomplished musicians. The concert will be given at the High school Auditorium, when Wilmot Goodwin, baritone, Samuel H. Quincy, pianist, and Florence Austin, violinist, will be heard.

WAGON STRUCK BY TRAIN.

Zanesville, Nov. 8.—While attempting to cross the Zanesville and Western tracks at Kohler's Crossing Tuesday morning a team and wagon owned and driven by Amos Baughman of South Zanesville, was struck by a passenger train. The wagon was demolished and one horse killed. The driver jumped from the wagon and was hurried several feet by the impact of the collision. He was not injured excepting a few bruises.

MASSACHUSETTS.

Boston, Nov. 8.—The vote of Massachusetts, complete, was as follows: Hughes 268,361; Wilson 247,327; for governor, McCall (Rep.) 274,353; Mansfield (Dem.) 230,175. For senator, Lodge (Rep.) 266,476; Fitzgerald (Dem.) 234,466.

Granville

(Special to Advocate.)
Granville, Ohio, November 8.—While the village polled a large vote yesterday, there was little excitement and little of the impassioned argument usual on such occasions.

The chicken dinner served by the Methodist ladies in the social rooms of the church from 5 p. m. on was well patronized and quite up to the standard of excellence already established by them in previous experiences.

Although there was no great crowd at any one time at the all-day meeting of the A. F. F. W. on Tuesday, there was a gratifying attendance during the day of those who were in and out, and a great deal of work was accomplished. Many came who had not previously attended, while many who have heretofore been faithful in attendance were forced to be absent on other business. Mrs. Biggs who is also president of the Missionary Organization was in Columbus, and Mrs. J. D. Thompson, chairman of the needlework committee is visiting her son Arthur in Oberlin.

At the brief business session Mrs. Frank Ray first vice president, presided and Mrs. McCollum read the secretary's report which is always interesting. Mrs. Perry reported the cash donations during the past week to have been \$48.15, \$22 of the amount having been given yesterday. On recommendation of the executive committee Mrs. Case requested that the press and publicity committee be increased by the addition of four new members, Mrs. J. W. Rohrer, Mrs. S. E. Morrow, Miss Helen Ackley and Miss Grace Chamberlin, whose duty it shall be to keep before the women of the community these weekly recurring work days for the A. F. F. W.

During the afternoon Mrs. Theodore Johnson brought in 38 completed comfort pillows made by the girls of Kappa Phi.

Mrs. Ray reported the day's work to have been: 6 dozen bandages, 10 packages, 15 packages of dressings, (25 in a package); 5 comfort pillows, 7 bed pads, and invited inspection of the supplies before they are packed by Mrs. John Geach and her committee for shipment. Mrs. George Richards of North street made her first visit to the rooms, working and leaving a contribution with the treasurer. Miss Helen Deviney is another from the country district who has given a large cash donation. The work is interesting in itself, which is not thought of either "pro" or "anti" this or that nationality, and the supplies go where they are most needed. Not to the already handsomely equipped hospitals where the millionaires have done so much to relieve suffering. But if this committee is to continue its usefulness, it will need funds constantly to buy materials, and it will need workers to fashion the materials into the articles needed.

The Social Union of the Baptist church has given 10; the Trinitarian church, \$10; the Fortnightly club, \$10; the D. A. R., \$5; the Winter Picnic, \$10, already reported, with the other church societies yet too meet, and there is a generous response from individuals, all

Game of Feathers.
This is a game that is almost too jolly for older people and yet very jolly for a large party even of them for a few minutes.

Seated in a circle, every one is set vigorously to wagging the hands. The leader proceeds somewhat after this fashion: "Dog feathers" (as dogs do not wear feathers, the hands must continue to wag), "fish feathers, lion feathers, mouse feathers, but feathers."

At this last, unless all are on the alert, some of the hands may go down on the lap. In that case the person whose hands go down first must become the new leader, because bats do not wear feathers. But if no one is caught the original leader continues:

+ NO RESIDENCE YET.
+ Superintendent Donald F. Stevens, of the Baltimore & Ohio railroad company, yesterday was denied a voice in the choosing of the next president of the United States, by reason of his being a resident of Ohio only eight months. Mr. Stevens came to this city from West Virginia, but he had not resided in that state long enough to permit him to return there for a vote.

THIS MORNING'S LINE-UP.

(ASSOCIATED PRESS TELEGRAM)
New York, Nov. 8.—This morning the returns while still incomplete made Wilson reasonably certain of 232 votes in the electoral college and seemed to give Hughes 218. There were votes still in doubt, 266 being required for an election. These states were counted for Wilson: Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Montana, Nebraska, Nevada, North Carolina, North Dakota, Ohio, Oklahoma, South Carolina, Tennessee, Texas, Utah and Virginia—total 232.

For Hughes these were claimed: Connecticut, Delaware, Illinois, Iowa, Maine, Massachusetts, Michigan, New Jersey, New York, Pennsylvania, Rhode Island, South Dakota, Vermont, Wisconsin and Wyoming—total 218. Returns from Cheyenne took Wyoming from the Hughes list, and placed its three electoral votes in the doubtful column with Wilson leading. These states were doubtful: California, Idaho, Indiana, Kansas, New Hampshire, New Mexico, Oregon, Washington and West Virginia—total 81.

DELAWARE COUNTY.

Delaware county, Nov. 8.—Wilson carries this county by 200. The Democrats elect five of the county ticket, including the representative. For congress Ashbrook makes a gain, 33 of 37 precincts giving Porterfield a majority of 323. Two of the missing precincts are Democratic.

Lightning Conductors.
It is a popular fallacy that a lightning conductor on a steeple or chimney acts by carrying the lightning to the earth. It would, of course, be completely fused by such a happening.

The fact is that the conductor, so called, ought to be called a lightning reducer, or a lightning neutralizer, or something like that, for the purpose is

Which Do You Prefer?

It is important for reasons of health and practical economy for every housekeeper to ask herself this question:

"Do I prefer a pure baking powder like Royal, made of cream of tartar derived from grapes, or am I willing to use a baking powder made of alum or phosphate, both derived from mineral sources?"

The names of the ingredients printed on the label show whether the kind you are now using or any brand, new or old, that may be offered is a genuine cream of tartar powder, or merely a phosphate or alum compound.

Royal Baking Powder contains no alum nor phosphate.

Caring for the Eyes.

A woman is as old as her eyes. They are indisputable evidences of the years she has lived and the experiences she has passed through. The complexion may be massaged and tinted to look like a baby's but alas for the utter sophistication in the eyes under the babyish, flower trimmed hat.

You should take two courses of treatment, one for the physical attributes of the eyes and another for their spiritual aspect. Kind thoughts, tolerance, high ideals, unselfish deeds, devotion to the beautiful in art, literature and music, and most of all, sympathy for every living thing; all these, if a constant habit of mind, will give the eye the beauty that charms, and draw young and old who come within their radius.

Now for the physical treatment. The eye must be kept bright and lustrous for only so will they suggest youth. They must be kept from sinking, for sunken eyes suggest ill health and old age. Their lids must not be permitted to become red rimmed, nor may their lashes be allowed to thin, as they will, after twenty-five, with most people.

If there is the slightest tendency toward swelling of the lids particularly of the skin under the eyes, consult a physician, for this condition is usually the outward symptom of more or less serious internal disarrangement. Hollows, or blue or purple shadows, beneath the eyes are also signs of inward trouble and should not be neglected.

A cloth wrung out in hot water in which bicarbonate of soda has been dissolved, and laid over the closed eyes for ten minutes, will remove the traces of even a hard crying spell. The arch of the brows also is most important to the beauty and expressiveness of the eyes. Cultivate the habit of keeping the

orchards are the best drug stores in the land.

One of the best fruits is the apple. The large percentage of phosphorus it contains makes it a brain food of high value. The acids of the apple are most useful for persons of sedentary habits, whose livers are sluggish in action and in need of stimulation. In fact, one might justly call the apple, "nature's cathartic." I might also add that the eating of apples is most beneficial to the skin and complexion.

Overwork and worry often cause nervous physical collapse. In such cases food and sleep should be prescribed. Perhaps one will have no desire to eat, nevertheless, it is imperative, for with plenty of easily assimilated food and plenty of rest and fresh air, the sooner will nervousness and weakness be overcome.

In case that one has really no appetite and eating is an actual effort, liquid foods should be taken. Raw eggs and milk rank high in value in fact, they not only satisfy hunger but are also quite nourishing.

To live above worry is no easy task, especially for persons of a nervous temperament. Nevertheless it is possible and can be attained through the power of the will.

Our Boys and Girls

When feeding baby with the bottle the same hours should be followed as were given for nursing him, the first three weeks; the infant should be fed every two and a half hours from six to nine p. m. and one feeding during the night at two a. m.

After three weeks he should be fed every three hours, eliminating the night feeding as soon as possible. Of course, this is for the healthy normal baby. The delicate one needs the advice of a physician.

There is no concerted general parade, but merely local assemblages, seldom over ten or twenty in number. Most of the groups are smaller. To "dressing up" the ragamuffins often add begging for small coins, fruit, candy, etc., and it is this feature of the annual masquerading that has led in recent years to a demand for its suppression. Often New York parents will give permission to their children to masquerade, but they add strict injunctions against begging. They are willing to let Johnny or Jennie enjoy the day in the ancient, time honored manner, but they set their faces against mendicancy. "You may dress up and go out, but you mustn't do any begging," is the order.

Many of the young ragamuffins find their greatest joy in arraying themselves in the clothing of the opposite sex. Half grown boys trail long skirts behind them or imitate the fashion when it calls for short skirts. And the hats they wear are wonderful and fearful creations. The little girls like to don trousers and discarded men's hats. Often the boys and girls black their faces, but not many masks are seen. Well known characters are frequently imitated, and in the recent past a certain "movie" comedian with a funny

A FUNNY RAGAMUFFIN.

walk and a laughable little mustache has been much in evidence on Thanksgiving day in the New York streets.

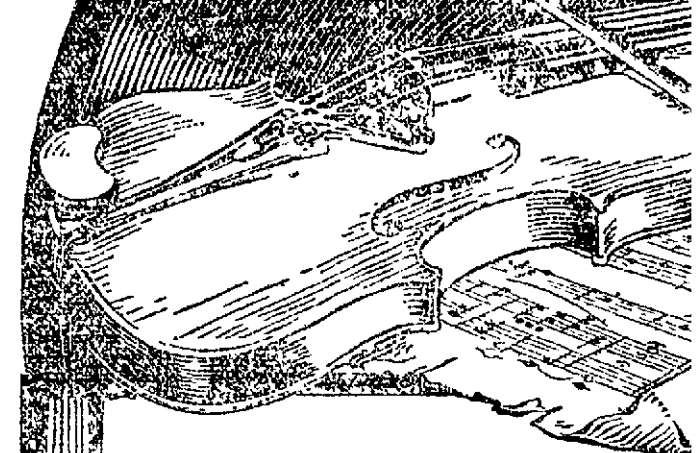

This Thanksgiving mummery in New York, which is not found in any other city, is a local custom, dating back several decades to the old target companies which used to shoot for prizes. They were ward bodies in the days before the districts known as wards were abolished. On Thanksgiving day these target companies assembled and paraded from house to house, visiting the prominent men of each ward. These men, city officials, judges, politicians, etc., gave prizes which were shot for later in the day, and the day's festivities wound up with a ball. The target companies were succeeded by companies of men called "ragamuffins" or "fantastics" who dressed in fantastic garb on Thanksgiving day. These adult ragamuffins have now been succeeded by the youngsters who "dress up."

In a recent letter an old New Yorker writes thus of the ragamuffins:

"I was interested in reading your article on the subject of the Thanksgiving day mummery, and I am rather surprised that some ancient person in the Greenwich village could not give you some information as to the origin of the custom, which, as far as I know, is local to New York."

"In my boyhood in the early seventies there used to parade through the streets on Thanksgiving day bands of grown men, some on foot, some on horseback and others in the two wheeled butcher carts of the day, clad in eccentric and fantastic clothes. These bands or companies called themselves the 'fantastics' and were called by the people of the street the 'ragamuffins.' They paraded in a spirit of more or less joke and were received with good nature and amusement."

"I used to be told by my elders that the fantasticals paraded in derision and mockery of the militia parades of the time, but their humor was probably leveled against the militia of an earlier date and possibly in memory of the general muster and training of a still earlier day."

ILL
DOUBTFUL

New York, Nov. 3.—With the
presidency in doubt this morning the
political complexion of congress also
was undecided and party leaders
were anxiously awaiting complete re-
turns before definite claims could be
made, although it appeared that the
Democrats would retain control of
the senate without question by a re-
duced majority.

With nearly a hundred congres-
sional districts still in doubt the Re-
publicans had made a net gain of
six, capturing fifteen Democratic dis-
tricts with the Democrats when the
dems had taken nine from the Re-
publicans. Without further upsets
this would reduce the present Demo-
cratic house majority of 23 to 11.
Republican leaders, however, insist-
ed they would win the house. They
claimed a gain of several seats in In-
diana and two in Michigan.

Practically complete returns show-
ed that the Democrats certainly
have lost four United States senators,
one each in Maine, New York, New
Jersey and Maryland while they gain-
ed one each in Rhode Island, Dela-
ware and Utah. Indications pointed
strongly to a further Democrat loss
of two senators in Indiana, one in
West Virginia and Arizona and pos-
sibly one in Montana. To offset this
in the possibilities the election of Re-
publican senators in Wyoming and
New Mexico had not been assured. If
the Republicans and Democrats
should lose all these as indicated the
senate still would remain Democratic
by two, 49 Democrats to 47 Repub-
licans. The Democratic majority in
the present senate is 16.

The most surprising development
in the senatorial contest was the de-
feat of Senator Henry F. Lippitt of
Rhode Island by Peter Goelet Gerry,
Democrat, as the state otherwise
went Republican.

Police Want to Know if Dain is Dead Or Alive

Zanesville, Nov. 3.—Zanesville au-
thorities are trying to solve the mys-
tery whether the body of Robert L.
Dain of Emporia, Kas., is in the Mus-
kingum river or whether the man is
alive and well. Dain was on his way
to visit friends in Norwich. Early
Tuesday morning trainmen found a
suitcase and a bundle of clothing in
the middle of the C. & M. V. bridge.
Bloodstains and a handful of gray
hair were also found on the tracks.
In the suitcase was a letter address-
ed to R. L. Dain. The police are
working on the theory that Dain was
crossing the bridge when he was
struck by a train and knocked into
the river below.

HIGH SCHOOL AUDITORIUM Daughters of Veterans Concert

An interesting and delightful
musical has been arranged by the
Daughters of Veterans, for Novem-
ber 13-14, when they bring to New-
ark a trio of accomplished musicians.
The concert will be given at the
High School Auditorium, when Wil-
mot Goodwin, baritone, Samuel H.
Quincy, pianist, and Florence Aus-
tin, violinist, will be heard.

On Tuesday evening, November
14, Mr. Wilmot will give his fa-
mous musical monologue, "The Witch
Song."

WAGON STRUCK BY TRAIN.

Zanesville, Nov. 3.—While at-
tempting to cross the Zanesville and
Western tracks at Kohler's Crossing
Tuesday morning a team and wagon
owned and driven by Amos Baugh-
man of South Zanesville, was struck
by a passenger train. The wagon
was demolished and one horse
killed. The driver jumped from the
wagon and was hurled several feet
by the impact of the collision. He
was not injured excepting a few
bruises.

The Children's Play Corner

Game of Feathers.

This is a game that is almost too simple for older people and yet very jolly for a large party even of them for a few minutes.

Seated in a circle, every one is set vigorously to wagging the hands. The leader proceeds somewhat after this fashion: "Dog feathers" (as dogs do not wear feathers, the hands must continue to wag), "fish feathers, lion feathers, mouse feathers, bat feathers."

At this last, unless all are on the alert, some of the hands may go down on the lap. In that case the person whose hands go down first must become the new leader, because bats do not wear feathers. But if no one is caught the original leader continues: "Lynx feathers, squirrel feathers, eel feathers, robin feathers." At this last all the wagging hands must fly down to the laps at once, being raised again, however, and keep on wagging. This is because robins have feathers. If any pair of hands have failed to salute the feathers the owner of that pair must become the new leader and strive in turn to catch others.

From this description the principle of the game will easily be seen. It is a good game to familiarize children with the names of different animals.

Game of Scouts.

The players divide into two parties and go into different rooms. Each party then sends out a "scout," and the two meet and decide on different things to guess (a small object in a local shop, the left eyebrow of Julius Caesar, or anything equally puzzling) and then return to the rooms, each going to his opponent's party, when questions are asked him in quick succession, as the side guessing first is the winning one and can take possession of both "scouts." Only those questions which can be answered by "Yes," "No" or "I don't know" are allowable. As in other games, it is first discovered whether the object is animal, vegetable or mineral, and after this is settled questions come thick and fast until one of the parties has won the guessing race, when a shout or whistle proclaims the fact to their opponents.

Dumb Show.

Players are divided into two equal groups. One party goes outside of the room. The others stay inside and choose a verb. The outside team is told a word which rhymes with the verb chosen. The outside team then acts out a verb which they think to be the right one without saying a word. If it is right the inside team claps hands. If wrong the inside team shakes heads, and the outside team must retire and try again. If successful teams change places. No speaking allowed.

Clipped Words.

1. A fish. 2. Hearty. 3. A drink. Answer.—Whale, hale, ale.

The Rabbit.

One day a little rabbit came Right into our back yard and eat And wagged his long gray velvet ears And sniffed about at this and that As if he wondered where he was, And then with scary little hops He scuttled up the garden paths And nibbled at the radish tops. I thought he'd come to stay with us, But when I ran across the lawn He gave a jump and tossed his head And small white tail—and then was gone!

"Do you believe that awful story they're telling, Pierce?" "Yes, what is it?"—Everybody's.

Lightning Conductors.

It is a popular fallacy that a lightning conductor on a steeple or chimney acts by carrying the lightning to the earth. It would, of course, be completely fused by such a happening.

The fact is that the conductor, so called, ought to be called a lightning reducer, or a lightning neutralizer, or something like that, for its purpose is, by forming an easy channel for the electricity of the earth to join the electricity of the clouds above, to reduce their tendency to do this in a violent hurry.

Have you ever watched a drop of water accumulate until it is too heavy to hold up longer? Splash it goes! That's what happens in the clouds. There is a big drop of lightning accumulating up above, and when it is too big to hold it comes down splash!

The conductor acts as though a thirsty breeze were to blow on the drop and prevent it getting heavier and eventually dropping.—Pearson's.

Practical Test.

A teacher in endeavoring to explain to his class what compressed air was brought his bicycle into the room and leaned it up against the wall.

"Now," he remarked, "under the outer covering of that back wheel there is a hidden force. What is it?"

"Injy rubber," said one smart youth.

"No. Try again."

The boy tried again, as did nearly every member of the class, but without success.

At length one of the youngsters, who had been making a close inspection of the machine, turned on the teacher with a beaming face.

"I have it!" he exclaimed. "It's wind—jest wind!"

After commending the youngster, the teacher asked how he discovered the "hidden force."

"Why," was the astounding reply. "I've just stuck my knife in it to see!" —London Globe.

REMEDY FOR NEURASTHENIA

Neurasthenia is a condition of exhaustion of the nervous system. The causes are varied. Continuous work, mental or physical, without proper vacation periods, without proper attention to diet and exercise, also worry over the struggle for success, are the most common causes. Excesses of almost any kind may produce it. Some diseases like the grip, will cause neurasthenia. So also will a severe shock, intense anxiety or grief.

The symptoms are oversensitiveness, irritability, a disposition to worry over trifles, headache, possibly nausea.

The treatment is one of nutrition of the nerve cells, requiring a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood and have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills.

Two useful books "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.

Caring for the Eyes.

A woman is as old as her eyes. They are indisputable evidences of the years she has lived and the experiences she has passed through. The complexion may be massaged and tinted to look like a baby's but alas for the utter sophistication in the eyes under the babyish, flower trimmed hat.

You should take two courses of treatment, one for the physical attributes of the eyes and another for their spiritual aspect. Kind thoughts, tolerance, high ideals, unselfish deeds, devotion to the beautiful in art, literature and music, and most of all, sympathy for every living thing; all these, if a constant habit of mind, will give the eye the beauty that charms, and draw young and old who come within their radius.

Now for the physical treatment. The eye must be kept bright and lustrous for only so will they suggest youth. They must be kept from sinking, for sunken eyes suggest ill health and old age. Their lids must not be permitted to become red rimmed, nor may their lashes be allowed to thin out, as lashes will, after twenty-five, with most people.

If there is the slightest tendency toward swelling of the lids particularly of the skin under the eyes, consult a physician, for this condition is usually the outward symptom of more or less serious internal disarrangement. Hollows, or blue or purple shadows, beneath the eyes are also signs of inward trouble and should not be neglected.

A cloth wrung out in hot water in which bicarbonate of soda has been dissolved, and laid over the closed eyes for ten minutes, will remove the traces of even a hard crying spell. The arch of the brows also is most important to the beauty and expressiveness of the eyes. Cultivate the habit of keeping the brows quiet when talking, which only makes wrinkles in the forehead.

Beautifying the Arms.

"Beauty of the arms includes, not only their appearance but their action. In the muscular development of the arms girls are much inferior to boys. Nearly every boy can pull himself up by a bar until his chin touches his fists, but few girls are able to accomplish this feat. There is such a close connection between the arms and the muscles of the front and back of the trunk, that any exercise that develops the arms will also develop the upper trunk muscles.

A splendid resistance exercise for the arms, which should be taken slowly, is as follows: With arms at sides, inhale deeply, clench the fists, bring fist to shoulder, moving the lower arm only, and resisting the movement partly. Now, with the first shoulder high and held there, bring the elbows slowly out and up to the shoulder level. The third part of the movement is to carry the fists close under the armpits and as far back as possible. Cross the fists high up on the back, and then lower them easily to the sides. Every part of this exercise includes resistance.

Lifting weights from the floor to enlarge the upper arm need not be done with an actual weight in the hands, in fact, it is much better for girls to control the resistance, regulating it according to their own individual strength which varies from day to day.

Take a long step forward and bend to the floor with the hands touching the floor. Take a deep breath, clench the fists, and pull the arms up as if lifting a heavy weight. As you lift carry the weight of the body slowly to the back foot, flexing the back knee. Keep the elbows high and twist the fists until the palms are up and the elbows back as far as possible.

Repeat three times to the right and three times to the left. Follow by three deep slow breaths. To increase the size of the forearm, open and close the hand rapidly with tension, increasing the number of times daily.

Some Beauty Destroyers.

Many a woman suffers from indigestion simply from lack of exercise. If this is brought about by wealth or indolence, I have but little pity to express, even if she loses her beauty on account of it. Indigestion is usually the result of a continued wrong diet.

To begin with, not fruit enough is eaten, it is looked on more as a luxury than as a food. Abroad it is quite the opposite and the table at nearly every meal is supplied with fruit. If everyone would eat more fruit and less meat many a doctor's bill would be avoided. We would then realize that our garden and

orchards are the best drug stores in the land.

One of the best fruits is the apple. The large percentage of phosphorus it contains makes it a brain food of high value. The acids of the apple are most useful for persons of sedentary habits, whose livers are sluggish in action and in need of stimulation. In fact, one might justly call the apple, "nature's cathartic." I might also add that the eating of apples is most beneficial to the skin and complexion.

Overwork and worry often cause nervous physical collapse. In such cases food and sleep should be prescribed. Perhaps one will have no desire to eat, nevertheless, it is imperative, for with plenty of easily assimilated food and plenty of rest and fresh air, the sooner will nervousness and weakness be overcome.

In case that one has really no appetite and eating is an actual effort, liquid foods should be taken. Raw eggs and milk rank high in value in fact, they not only satisfy hunger but are also quite nourishing.

To live above worry is no easy task, especially for persons of a nervous temperament. Nevertheless it is possible and can be attained through the power of the will.

Our Boys and Girls

When feeding baby with the bottle the same hours should be followed as were given for nursing him, the first three weeks; the infant should be fed every two and a half hours from six to nine p. m. and one feeding during the night at two a. m.

After three weeks he should be fed every three hours, eliminating the night feeding as soon as possible. Of course, this is for the healthy normal baby. The delicate one needs the advice of a physician.

Every Day Etiquette

"Kindly advise me what is the proper way to address an announcement that is sent to the father, mother and family?" asked Alice over the phone one morning.

"It is not proper to make a single announcement serve for an entire household. One invitation should be set to 'Mr. and Mrs. Smith,' another to the 'Misses Smith' and another to the 'Messrs. Smith' answered her aunt.

Nell—"Mrs. Henpeckke complains that her husband is close." Belle—"No wonder; she never lets him out of her sight."

Reports from Every State

All Agree that Lydia E. Pinkham's Vegetable Compound Wonderfully Relieves Woman's Suffering.

From all parts of this country the clearest evidence is constantly coming to the office of the Lydia E. Pinkham Medicine Co. of Lynn, Mass., proving the wonderful power shown by Lydia E. Pinkham's Vegetable Compound in controlling ill's peculiar to women. Here are letters from Vermont, Arkansas and New Jersey:

It Cured Me!
Roxbury, Vt.—"A year ago last December I was taken with a female trouble and doctored for it but did not get any help until I took Lydia E. Pinkham's Vegetable Compound. My back troubled me a good deal and these troubles lasted so long that I grew terribly poor and I felt a great deal easier lying down. No one knows what I suffered. I did not dare consult another doctor I was so afraid he would say I had got to have an operation. I can truly say that Lydia E. Pinkham's Vegetable Compound was a god-send to me for after suffering about eight months this wonderful medicine cured me."—Mrs. NELLIE E. FRENCH.

Her Best Friend.
Weehawken, N. J.—"I must call you my best friend for what your remedies have done for me. I am 50, and am passing through the Change of Life and for some time I felt bad but since I took Lydia E. Pinkham's Vegetable Compound I feel fine and will recommend it to every woman who suffers as I did."—Mrs. KATHIE LEONHARDT, 419 7th St., Weehawken, N. J.

Had Awful Pains in Side.
Branch, Ark.—"Every month I suffered with cramping pains and I had awful pains in my left side. I was very irregular. I had a tired feeling all the time and did not sleep good at night. I took Lydia E. Pinkham's Vegetable Compound and in three months I was well."—Mrs. MAE GATTIS, Branch, Ark.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

NATIONAL FARM SHOW AT NEW ORLEANS OPENS NOVEMBER 11
New Orleans, Nov. 8.—The National Farm and Live Stock Show, under auspices of the Business Men's Racing Association of this city, will open here on Nov. 11 with exhibits from all parts of the country and will continue through November 19. The sum of \$25,000 has been set aside for premiums in the livestock and agricultural departments and prize-winning cattle, horses, hogs, and poultry, as well as exhibits of farm and dairy products and machinery, will be brought here from Mississippi, Oklahoma, Texas, Kansas, Wisconsin, Kentucky, Iowa, Georgia, Louisiana, and other state fairs. Many exhibits from the International Dairy Congress also were entered.

The Racing Association has for one of its purposes the development of the livestock and agricultural industries of Louisiana and it has planned itself that all profits accruing from the show shall be applied to establishing a permanent fair here.

Amusements
THE AUDITORIUM.
Last Night's Show.
"Fair and Warmer" was the big laugh festival which pleased two audiences at the Auditorium Tuesday, a matinee being given in the afternoon. Selwyn & Company were the producers and that alone should have been a guarantee of its success. These well known producers have furnished us "Within the Law," "Twin Beds" and Margaret Illington in "The Lie."

Manager Fenberg is furnishing the patrons of the Auditorium with a high class line of amusements and it should be appreciated. He has given us a number of standard attractions thus far and the season has only started.

"Fair and Warmer" is a farce comedy by Avery Hopwood in three acts, each of which is filled with humorous situations that tend to drive away the blues and keep every one in a good humor. The three acts of hilarity center around two young married couples with time and money enough to take themselves seriously, and temperament enough to make their performances dramatic, endearing and supremely comic. It is infallible as a laugh maker and was brimming over with absurd situations and a galaxy of sparkling lines presented by an excellent cast of farceurs.

The situations, tanglements or whatever they may be classed were enjoyable from the raise of the curtain until the finale.

Manager Fred Rider is to be congratulated upon selecting such an admirable company of players and should see fit to give Manager Fenberg a return date he will again do capacity business.

Election returns were read between

At Auditorium next Tuesday and Wednesday.

the acts and the audience was kept advised of the political situation.

"The Light of Happiness."
Viola Dana, the dainty and gifted young Metro star, who has the stellar role in "The Light of Happiness" has been appearing in public practically all her life. And that is not so very many years, either, as little Viola is but eighteen now, incidentally being the youngest legitimate star in the silent drama. She has proved a marvel since she began appearing in so many difficult roles in motion pictures, but before her advent into them she was known from coast to coast for her remarkable "Rich Girl." This play ran for more than two seasons on Broadway.

Miss Dana's first appearance was as a solo dancer, when she was five years old. As a tiny mite of a girl she was in constant demand as a dancer, and appeared in fancy and toe dancing on several notable occasions. This attracted her to the stage and one of her first parts was in Isben's "When the Dead Awake." Later she had the important role of "Little Hendrick" in "Kip Van Winkle," playing with Thomas Jefferson for three seasons. During this time Mr. Jefferson took a great personal interest in Miss Dana, and gave her much encouragement in her artistic endeavors.

This feature together with the third episode of that thrilling serial "The Crimson Stain Mystery," with Maurice Costello and Ethel Grandin will be seen today only.

"The Common Law."
Clara Kimball Young surrounded by a cast of exceptional brilliance, will be seen at the Auditorium theatre on Friday and Saturday in the Selznick-Picture production of Robert W. Chambers' novel "The Common Law." This is the first of this universally popular star's production at the head of her own production company and has been widely heralded as a veritable triumph of film art.

Yes, Clara Kimball Young in Robert W. Chambers' "The Common Law" will be the first of the new Young pictures shown here. The date is Nov. 10 and 11. This is the first of the new Selznick Pictures and from all reports it is a world-beater. Prices for this feature are to be 25 cents.

Splendid Pictures.
Mr. Fenberg of the Auditorium is sure giving the patrons of his house the best possible. Friday and Saturday he has Clara Kimball Young in "The Common Law," and next Tuesday and Wednesday Francis X. Bushman and Beverly Bayne

in "Romeo and Juliet," a \$250,000 production.

Miss Kuster Withdraws.
It is with sad regret that the management of the Auditorium announce the withdrawal of Dorothy Kuster from the movie contest, owing to a previous engagement out of the city. Miss Kuster was second in the race and had a great chance of getting in the lead. This gives Miss Garity a great lead over all other contestants, unless there are many votes held back for the final count.

"Pacemakers."
In preparing the "Pacemakers" an entertainment for the great American public, Messrs. Herk-Kelly & Damsel have spared no effort or judgment to provide the greatest musical extravaganza and variety show the circuit has ever known. With that success their attempt has been crowned, you will have an opportunity to judge for yourself at the Auditorium theatre next Monday when the "Pacemakers" opens an engagement of two performances. That your verdict will be favorable is assured. In keeping with this idea, the proprietors have engaged a chorus of the most attractive young women who ever donned wardrobe with a burlesque show. Nor was their appearance alone considered in their selection, for, though beauty was the prime essential, there was the added requirement that each girl selected could sing the songs and speak the lines in the really funny book that has been provided for the "Pacemakers." The result is a chorus that will make every patron of the Auditorium theatre sit up and take notice. After this matter had been taken care of, the producers looked about for the most talented principals they could find

JAPANESE MINISTER WILL VISIT VATICAN
Tokio, Nov. 8.—Yagoro Miura, Japanese Minister to Switzerland, has been instructed to proceed to the Vatican at Rome to return the visit made to the Japanese Court early this year by Archbishop Petrelli, special apostolic delegate who conveyed to Emperor Yoshihito the coronation congratulations of Pope Benedict. Minister Miura will present to the Pope an autograph letter from Emperor Yoshihito.

There is no indication here that Japan intends to inaugurate permanent diplomatic relations with the Vatican.

CHRISTMAS BLOOMS.
Some beautiful flowers may be had for the Christmas holidays by setting bulbs of paper white narcissus in water during the first part of November. A shallow dish should be nearly filled with pebbles. Upon or between these, several bulbs may be placed. When adding water care should be taken that it does not cover more than one-third of the bulb. The only attention required is that of supplying water. The flower develops from food stored up in the bulb.

ION-O-LEX

Hundreds of Gallons Used in British Military Hospitals

Ion-o-lex, under its English name of Dielectric, is revolutionizing the treatments of wounds and diseases in English military and field hospitals. One hospital alone used over 250 gallons in six weeks.

Ion-o-lex Unguent allays inflammation and prevents blood poisoning in wounds, burns and sores.

It acts with wonderful promptness in cases of sore throat, tonsillitis, pneumonia, in eczema and erysipelas, and also in neuritis, acute rheumatism and other diseases of similar nature.

Ion-o-lex is a truly wonderful English discovery. Thoroughly scientific and absolutely harmless, it does not interfere with any other treatment, and should be used at once wherever inflammation of any kind exists.

Some of the most prominent physicians in the United States are using it and prescribing it regularly

Consumers The People's Choice

It is probably no exaggeration to say that 9 out of 10 people in Newark prefer Consumers to any other beer. They prefer its snap and sparkle, the superb, matured, mellow flavor of its unique blend of malt and hops—its life and vigor, vim and go. Popular favor has both selected and elected Consumers as the beer for the home.

71 YEARS IN BUSINESS

JOE VARGA IS EXPECTED HERE TODAY FOR BOUT

Bowser-Varga Match at Auditorium
Thursday Night Will Attract
Record Crowd — Seat Sale
Heavy.

Present indications look toward a "sell out" at the Auditorium theater on next Thursday evening, when Paul Bowser, world's middleweight wrestling champion, meets Joe Varga, the Austria-Hungarian light heavy weight champion of Europe. The advance sale of seats at the Auditorium is the heaviest of any previous bouts, while at the various stores where the ringside seats are being handled, the sale has been beyond expectation. Women fans are showing a keen interest in the coming bout and already a great many tickets have been taken up by them. The fact that Varga is considered a combination of "Bull" Montana and John Kilonis, in the way of "fireworks," is responsible for the heavy demands for seats.

Last season the above mentioned grapplers sent their audiences home in a pleasant frame of mind, by their exciting work on the mat. There was never a dull moment in either bout neither did Bowser have a walk-away with the decision.

Varga holds a decision over Bowser, which he won several weeks ago at Johnstown, Pa., by throwing the champion twice in quick time. Paul, however, holds a decision over Varga, making the count 50-50, so Thursday night the men will decide their supremacy.

Varga is a Greco-Roman style wrestler while Bowser excels at the catch-as-catch-can style. In order that neither will have any great advantage, the men have agreed to wrestle both Greco-Roman and catch-as-catch-can styles. This will be the first opportunity local fans have had to see the old style of grappling, which bars all holds below the waist.

The first fall style of milling will be determined by the toss of a coin and the second fall will be the other style. Should the bout go to a fall each, the third and final fall will be wrestled in the style of the man winning his fall in the quickest time.

Bowser is busy arranging a preliminary card that will be a hummer, and which will bring the city's best amateurs together. The show will start promptly at 8 o'clock, and the main event will probably begin about 8:45.

TO DARKEN HAIR APPLY SAGE TEA

A few applications of Sage Tea and Sulphur brings back its vigor, color, gloss and youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

DEMOCRATS ELECT UTAH GOVERNOR.

(Associated Press Telegram)
Salt Lake City, Nov. 5.—Woodrow Wilson has carried Utah by about 15,000 plurality. United States Senator George Southern, republican, has been defeated by Judge William H. King, Simon Bamberger, Democrat, has been elected governor and the entire Democratic ticket swept the state.

Mr. Bamberger is the first Democrat and the first non-Mormon to be elected governor of Utah.

500 POUNDS OF BEEF IN USUAL MURPHY OX ROAST

Did you ever attend an ox roast?
Did you ever enjoy the succulent
meat as it is taken dripping from the
pit?

Did you ever enjoy a roast prepared by Tom Murphy?

Well if you did not you have missed one of the good things of life. Tom Murphy who resides southwest of the city is known far and near as one of the best chefs in Central Ohio. When it comes to preparing a barbecue he has no superiors. This fact can be attested by thousands who have enjoyed the delicious roasts which he has prepared. Tom Murphy is the individual who receives an invitation to one of the "big doings" where Mr. Murphy reigns supreme.

Preparations are being made for another one of these big affairs and Mr. Murphy expects to serve 800 people. He allowed an Advocate representative to take a peep at his list which he requires and here it is:

Half quarter of beef, 250 pounds.
Second hind quarter, 190 pounds.
Third hind quarter, 100 pounds.
Four bushels of potatoes.
Three bushels of tomatoes.
Two boxes of crackers.
Twenty pounds of barrel salt.
Three sacks of table salt.
Two crates of celery.
Twelve dozen loaves of white bread.

Four dozen loaves rye bread.
Seven dozen loaves stale bread.
Fifteen pounds of liver.
Ten pounds of pork.
Two dozen eggs.
One peck onions.
One gallon carrots.
Two pounds black pepper.
One pound cayenne pepper.
Ten packages pulverized sage.

In the way of dishes, etc., there will be needed six large meat platters, 1,000 paper plates, 800 knives and 800 forks, six lard cans, one-half dozen tubs, six dish pans, 800 tin cups, four large meat forks, half-dozen butcher knives, steels, meat saws, dippers, strainer, towels, soap, etc.

REAL TEST FOR M'DANIEL TEAM ON NEXT SUNDAY

Lancaster Independents Will Battle
With Locals at Moundbuilders
Park—Game at 3 P. M.

Newark football fans on next Sunday afternoon will have the opportunity of seeing one of the fastest professional teams in the state, when the Lancaster Independents battle with the McDaniel team at Moundbuilders park. The game will be called at 3 o'clock.

Manager McDaniel of the local team arranged Sunday's contest after considerable trouble. He wanted to get a real team to send against his gladiators, but none of the star aggregations in the Capital city, cared to leave Columbus.

Since the McDaniel team got going and the fans have been turning out better, requests for games have been made by Mr. McDaniel from all parts of the state. But in each case the teams wanting games were not in the local's class and hardly able to make it interesting.

It is the desire of the manager of the "Macs" to bring to Newark, only teams who have enough class to make the game interesting and cause the locals to extend themselves to win. Martins Ferry is another team that is anxious to have Newark play in their city, but refuse to come, because they say they could not make expenses.

An effort was made to secure the Marion Questions for next Sunday but this team was booked. But in the Lancaster team, Mr. McDaniel believes he had booked a team that will hurry the locals for the decision.

TAKE SALTS TO FLUSH KIDNEYS

Eat Less Meat If You Feel Backache
or Bladder Troubles You—Salts
Is Fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush out the body's uricuous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.

The fellow who tells a girl he would gratify her smallest wish may later have some difficulty in picking out the smallest.

CAR PLUNGES THROUGH BRIDGE; 40 ARE KILLED

Boston, Nov. 8.—The lives of from 30 to 40 persons were lost last night when a crowded passenger car on the Boston elevated street railway plunged through an open draw bridge into Fort Point Channel, just outside the south station terminal.

Twelve other persons were rescued from the water by fire boats and tugs. One man, Thomas J. Gannon, died after being brought to shore. Two bodies were found with grappling irons, but the recovery of other bodies was delayed as it was believed they were pinned in the car which rested on the bottom of the channel, 35 feet deep.

Gerald Wash, motorman of the car who jumped before it went over the edge of the draw asserted that the accident was due to the fact that there was no light on the gates protecting the opening. He and George McKean, the conductor, who also leaped and so saved his life, were arrested on technical charges of manslaughter. The conductor was sensible and the police were unable to learn exactly the number of his passengers.

Some of the rescued people estimated the number of passengers at upwards of 50. J. Harvey White, publicity agent of the Boston elevated railroad in a statement issued soon after the accident said his information agreed with that of the police that about 40 persons were unaccounted for.

Most of the passengers were employees of the Western Electric company's factory in South Boston and were returning to their homes from work. Many women and children were included in the number.

The car was of the closed type with a narrow door at each end so that escape was impossible except for those who happened to be standing on the platforms.

The first assistant draw tender, Timothy J. Shea, who was in charge of the bridge, disputed the statement of the motorman that there was no light at the draw. Shea said the usual red signal lights were on the gate. He was not sure, he said, whether the arc lamp and the bridge were lighted.

Editor of The Advocate:
Will you permit me through the
columns of The Advocate to express
a word of appreciation to my friends
who brought about my re-election
on Tuesday? I am indeed very
grateful and when I look at the re-
turns and see vote given President
Wilson in this county (2280 plural-

pride and pleasure at the result. I
shall not forget the friends who have
been loyal to me but as they are
numerous and widely separated over

READ WHAT THIS DRUGGIST SAYS OF NERV-WORTH

"Most Universally Satisfactory Medi-
cine We Have Ever Sold"—W.
J. McGuire, Huntington,
W. Va.

Sometime ago these columns bore
a Nerv-Worth endorsement given by
Druggist T. J. Evans of this city.
Here is another to the same effect:
"This store has been established
here in Huntington for over thirty
years. It has acquired, during this
long service to the people of this
city, a reputation for honesty and
square dealing that is one of its
greatest assets. We want to say
that with this reputation to live up
to we cannot afford to guarantee or
recommend any preparation that has
not thoroughly proven itself to pos-
sess unusual and striking merit. In
view of this our statement regarding
Nerv-Worth should be taken as con-
servative, and strictly within the
truth in every respect. IT IS THE
MOST UNIVERSALLY SATISFAC-
TORY MEDICINE WE HAVE EVER
SOLD. The results obtained by its
use are in many cases almost marvel-
ous. Sold on a guarantee as it is
not one in two hundred make claim
for refund, and the strong endorse-
ments brought into our store almost
daily convince us it is a remedy
WITHOUT AN EQUAL."

Missionary Meeting.
The regular monthly meeting of
the Women's Missionary society of
the First Baptist church will be held
Thursday afternoon at 2 o'clock at
the home of Mrs. W. McMillen, 37
Granville street.

Condition Slightly Improved.
The condition of O. Carl Martin,
county recorder who has been seri-
ously ill at his home in St. Louis-
ville shows a slight improvement to-
day. He rested easier last night.
Mr. Martin is suffering from gall
stones. The attending physician is
Dr. J. D. Rouse of St. Louisville.

Missionary Meeting.
The Woman's Home and Foreign
Missionary society of St. Paul's
Lutheran church, will meet Wednes-
day, Oct. 15 in the church parlors.
Finance Committee.

The regular meeting of the Mem-
bership and Finance committee of
the Chamber of Commerce will be
held tomorrow evening at the Cham-
ber at 7:30 o'clock. A demonstra-
tion in salesmanship will be held.

No Police Court.
The police have not sent a man to
the city prison since late Sunday
night and as a result there has been
no police court for the past two
days. Not an arrest was made last
night, the large crowd downtown to
hear the election returns, contenting
itself with having a good time with-
out becoming boisterous and rowdy.
Missionary Society.

The members of the Missionary
society of the First Presbyterian
church will hold the regular meet-
ing Thursday afternoon at 2:30
o'clock in the church parlors.

Underwent Operation.
Mrs. Charles Patten of West
Church street underwent an opera-
tion at the City Hospital on Monday
morning. The attending physicians
were: Drs. J. T. Harbottle, Kennedy
and Baxter.

Arrested for Abuse.
Police this afternoon arrested an
East Newark man on charges of be-
ing drunk and abusing his family.
According to the police the man
made a number of false accusations
against a daughter, which precipitated
in a family row. The father was
taken into custody and will be
arraigned before Mayor Bigbee in
the morning.

Condition Improved.
The condition of Arthur Beasley,
lineman, 465 Maple avenue, who
yesterday afternoon suffered serious
injuries in a fall from the top of a
telephone pole at William and Cam-
bria streets, today was improved at
the Sanitarium.

Henry Daughty Improved.
Henry Daughty, an employee of the
American Bottle works, who suffered
a fracture of the left knee, late yester-
day afternoon, this afternoon at
the sanitarium was reported improv-
ed.

A Defense of "We All."
I noticed some time ago a letter in
your paper criticizing the use of the
expressions "you all" and "we all,"
used so constantly in the south. The
best type of middle English prose is
full of the expressions "we all," "ye
alle," "they alle." Shakespeare uses
the three forms, his preference being
for the post position of "all."

"We all were sea swallowed." Tem-
pest, II, 1, 231.
"You all do know this mantle." Ju-
lius Caesar, III, 2, 174.
"I tell ye all I am your better." Henry VI, V, 3, 33.
"They all have met again." Tempest,
I, 2, 223.
"Better it were they all came by the
father." Richard III, 2, 3, 24.
Bible translations have used it:
"For one plague was on you all,"
I Sam. vi, 4.
"We give thanks to God always for
you all," I Thess. i, 2.
"I speak not of you all." John,
xiii, 18.—J. C. Payne in New York

HER TIPS CAME BACK.

The Woman Meant Well, but She Was
Playing in Hard Luck.

The woman had just asked the wait-
er for her check, when suddenly she
remembered that she had failed to get
a draft cashed that morning and prob-
ably hadn't enough change in her
purse to pay her way out (restaurants
are pay as you exit affairs, you know).
The check the waiter placed beside
her called for 40 cents, and there were

"THIS IS YOURS, I BELIEVE."

six dimes in her purse. She was safe.
Sliding one of the coins under the
plate, she made her way to the cash-
ier's desk and paid. She was all but
on the street when a voice at her el-
bow called her back. Turning, she be-
held the waiter who had served her.

"Pardon me, madam," he was say-
ing, "but this is yours, I believe." In
his extended hand between thumb and
forefinger was a dime.

The woman felt the hot blood rush
to her face. "But I don't understand,"
she said. "Take it," he said coldly,
and dropped it into her glove. One
good look was enough. It was lead.

Murmuring her apologies, she opened
her purse and handed the other dime
to the man beside her.

As he glanced at it hurriedly a puz-
zled look came into his eyes. His fea-
tures were on the verge of hardening,
but then, as if deprecating that de-
cision, he softened them with a broad
smile.

Again the voice and the outstretched
hand. "Pardon," it was saying, "but
madam can probably dispose of this
easier than I. I go to church so sel-
dom."

It was a Canadian dime.—New York

Privation.
Prosperity is a great teacher; adver-
sity is a greater. Possession pampers
the mind; privation trains and strength-
ens it.—Hazlitt.

Courage and the Flea.
Courage is resistance to fear. Insti-
tute of fear, not absence of fear. Ex-
cept a creature be part coward, it is
not a compliment to say it is brave; it
is merely a loose misapplication of
the word. Consider the flea—incom-
parably the bravest of all the crea-
tures of God if ignorance of fear were
courage. Whether you are asleep or
awake, he will attack you, caring
nothing for the fact that in bulk and
strength you are to him as are the
massed armies of the earth to a suck-
ling child. He lives both day and
night and all days and nights in the
very lap of peril and the immediate
presence of death and yet is no more
afraid than is the man who walks the
streets of a city that was threatened
by an earthquake ten centuries before.
When we speak of Clive, Nelson and
Putnam as men who "didn't know
what fear was" we ought always to
add the flea—and put him at the head
of the procession.—Mark Twain.

Crass Ignorance.
An unsophisticated resident of a
small town had never been in court
before and was not familiar with the
interrogative manner in which a law-
yer juggles a witness. When he re-
turned home in the evening a friend
asked him how he had made out.
"Oh, I made out all right," he replied,
"but I never saw such a bum lot of
lawyers in my life."
"What was the matter with them?"
queried the friend.
"A whole lot was the matter with
them," answered the witness. "Judg-
ing from the million questions they
asked me, there ain't a darned one of
them that knows anything about the
case."

Sounded Queer.
Charles Keen, the actor, could not
pronounce the consonants "m" and
"n." In the first scene with Jarvis in
"The Gamester" he began by inquir-
ing, "Well, Jarvis, what says the
world of me? I'll tell thee what it
says. It calls me a false friend, a
faithless husband, a cruel father—in
one short word, it calls me Gamester!"
In Shylock he was wont to say:
You take by life
When you do take the beans whereby I
live.

But his most unfortunate slip oc-
curred in the last line of "Money,"
where Evelyn says that in order to en-
joy the good things of life we require
"plenty of money." In this situation
Keen always brought the curtain
down with a roar by sarcastically re-
marking that the one thing necessary
to complete their happiness is "plenty
of putty."

Protracted meeting is still in pro-
gress at Rocky Fork.

IT was in November and only the
day before Thanksgiving. On the
morrow aunts, uncles, cousins,
grandparents and all relations
would come and spend the day with
Mr. and Mrs. Churchill and little
Florence. Mrs. Churchill was the
oldest daughter of Grandma Grey, and
for that reason all the relatives spent
the eventful day at her house.

Florence was a sweet little girl,
much loved by all, and now that she
had only one day to wait before the
reunion of the family she was in great
excitement. Of course it was Florence
who, on the following day, had to help
Nora set the table, and it was Flo-
rence who had to taste the candy to see
if it was sweet enough.

At 10 o'clock the next morning the
family started to arrive and kept on
coming until noon. Florence all this
time was much fondled and petted,
and Cousin Ned declared that there
would be no Florence left if the hug-
ging did not stop.

Games were played, songs were
sung, and all was fun and merriment.
"Oh, look," said Cousin Alice, "it is
snowing." And, sure enough, the snow
was coming down in big flakes. The
children all gathered around the win-
dow to watch the storm, when Cousin
May saw a poor little girl trying to
walk against the wind. She was shiv-
ering with cold, and her only wrap was
a thin cotton shawl.

"Call her in and give her something
warm to eat," said grandma, who had
gone to the window when she heard
the children's exclamations of pity.

"Yes," said Mrs. Churchill, "Annie,
call her in."

The maid addressed went to the door
and pulled in a half frightened and
half frozen little girl. Meanwhile,
Florence had gained permission not
only to wait on the little girl herself,
but also gave her the dollar she had
saved for Christmas presents. Flo-
rence went out in the hall to meet her
and led her into the breakfast room,
where before her she put all kinds of
goodies. Mrs. Churchill said that she
had warm clothes for her, and grand-
ma said she would inquire into her
story and see what she could do.

Aunts, uncles and cousins all deter-
mined to help in some way. After eat-
ing a warm dinner Florence took Edith,
for that was her name, into the parlor,
where she was piled with questions.
She told Mrs. Churchill that her
name was Edith Greyton and that she
lived in an alley right in the middle of
the next square; she also said she had
two brothers and one sister, all of
whom were younger than herself. Her
father was sick, and her mother had
to wash to earn a living. After hear-
ing the narrative and taking down her
address, Mrs. Churchill and Grand-
ma Grey took her upstairs, where they
dressed her in warm clothing and
promised to call and see her mother.

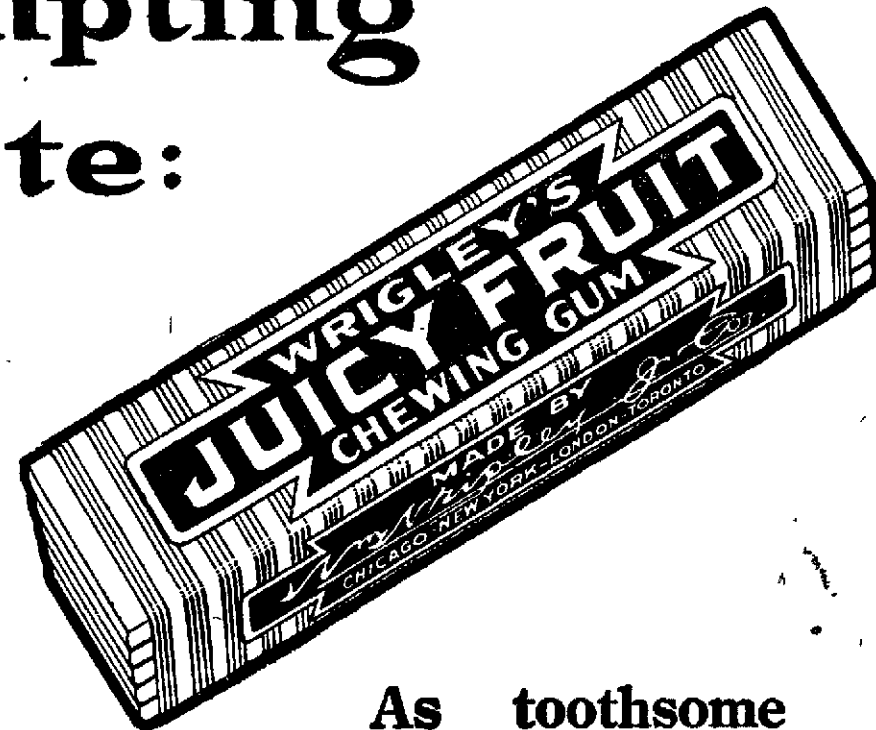

In the playroom that afternoon Flo-
rence sat surrounded by her cousins, to
whom she was telling an idea. It
would be less than a month till Christ-
mas, and why couldn't they all try to
earn some money and take Edith a
Christmas basket? This was voted on
unanimously, and eight little children
went to their homes thinking of what
they could do. That night, after the
snow had stopped falling and the moon
and stars had come out to play, the
moon gazed down on the two happy
children, one happy thinking of the
good she had done and the other happy
thinking of the good that had been
done for her, and the moon smiled to
himself and said, "For those two tots
this has been a happy Thanksgiving."

Thanksgiving is an occasion of
national interest, yet it possesses
significance that is entirely in-
dividual. With many of us
things have gone well this year.
The table is laden with plenty.
There is meat in the larder and
there is grain in the storehouse.

Local Thanksgiving Days.
The practice of having local Thank-
sgiving days has prevailed to some ex-
tent in America. On Oct. 15, 1514, the
mayor of Baltimore, upon the sugges-
tion of the city pastors, appointed the
following Thursday "to be observed as
a day of thanksgiving to the Adorable
Disposer of all human events on ac-
count of our recent deliverance from
the British fleet and army." That was
for the escape of Baltimore after the
attack on Washington in 1814. A few
months later the newspapers stated
that "both houses of the Ohio legisla-
ture on Wednesday, the 8th day of
February, pursuant to a resolution pre-
viously adopted, moved in procession to
the Presbyterian meeting house in
Chillicothe and rendered public thanks
to Almighty God for granting such bril-
liant success to our arms at New Or-
leans in the recent victories obtained by
General Jackson and his compatri-
ots." Chillicothe at that time was the
capital of Ohio.

TURPO
THE TURPENTINE OINTMENT

What to Do for
a Bronchial Cold

When a cold "settles in your
chest," you know it's likely to be
serious. You can generally
prevent a cold from going that far
—by using Turpo promptly.
But if you've waited too long
and have a deep bronchial con-
gestion—even then, a vigorous
use of Turpo will probably drive
it out. Rub Turpo IN. Apply it
liberally—and bandage with
flannel. The turpentine penet-
rates; the menthol and cam-
phor soothe and heal. Turpo
helps catarrh; eases pain; heals
cuts and burns; and when used
after shaving leaves the skin
feeling fine. Buy Turpo of
your Druggist. 25c, 50c, \$1.00.

WASH YOUR NOSE

on the inside. You breathe through
your nose, and every germ you draw in
while in crowded street cars or in houses
where people have colds, catarrh, gripe,
and the like, lodges on the delicate tis-
sues of the nasal passages. If these
germs are given time they go down into
your throat and cause colds and gripe,
and often go farther into your bronchial
tubes and lungs. The diseases they cause
here may only make you miserable for a
few weeks, or they may develop into
serious afflictions.

As soon as you have a "stopped-up"
feeling in your nose, you should be sure
to give it a good bath. Take an atom-
izer and fill it from a glass of clear
water into which you have put five to
ten drops of Hyclorite. Throw your
head back, and inject the solution into
the passages. Do this several times.
This nose bath will kill germs promptly,
and refresh and soothe the delicate
membranes. Keep up this treatment for
a few days and you will keep colds and
grippe from developing, because the Hy-
clorite kills the germs which cause them.
Hyclorite is a solution of sodium hy-
pochlorite such as has saved so many
from blood poisoning and disease in the
European war. The U. S. Government
reports say that a hypochlorite solution
is the most effective and economical em-
ployed by the Anglo-French army sur-
geons.

Although many times more powerful
than the harmful antiseptics which con-
tain poisons, acids, mercury or danger-
ous preservatives, Hyclorite is even safer
than the weak and ineffective peroxides.
It is clean, clear and harmless as
water—but powerful. Any druggist can
supply Hyclorite in 25 and 50 ct. bottles.

POWERS OF INJUSTICE DEFEATED IN OHIO, SAYS JAMES M. COX

[ASSOCIATED PRESS TELEGRAM] Dayton, Nov. 8.—The following statement was given out by James M. Cox from his newspaper office this afternoon:

"There is nothing personal in my victory. Progressive government has defeated in Ohio all the powers of injustice. The amount of money expended in the last stand against our laws will never be known. The desperate tactics of vicious elements can hardly be measured. The result cannot but be an inspiration, not only to the people, but men in public life, because it is demonstrated that compromise with principle never pays and that in the end right will obtain, regardless of self and criminal selfishness."

Obituary

Mrs. Hibbard Hall.
Mrs. Hibbard Hall, aged 75, died at 8:30 o'clock Tuesday evening at her home near Rural Dale from a stroke of apoplexy, Sunday. She was a well-known and highly respected woman. She is survived by her husband and four children, Samuel and Mrs. Harry Dunn of Newark, Mrs. William Frame of Rural Dale and Mrs. Howard Peyton of the home.

Mr. Risher's Funeral.
The funeral services of George Risher, well known bandsman, who died at his home, 42 Pearl street, yesterday, will be held at the home, Thursday afternoon at 2 o'clock at Interment will be made in Cedar Hill cemetery.

Leo Risher, brother of the deceased arrived home today and Guy Risher, another brother is expected to arrive here tonight. The latter was notified of his brother's death while he was appearing with a show in Kentucky.

Mrs. Charles H. Warden.
Mrs. Lillian Warden, wife of Chas. H. Warden, died Wednesday morning at 5 o'clock at her late home in the Balmawr apartments in North Fourth street. She was 65 years, 8 months and 10 days old.

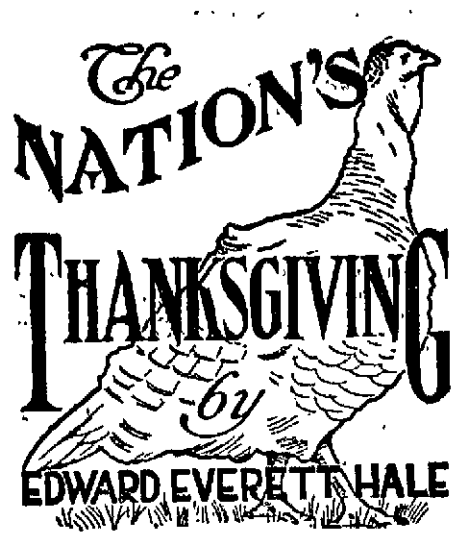

Death was due to a complication of diseases. Mrs. Warden had been ill for some time and seriously for the past two weeks. Several months ago Mrs. Warden was taken to Asheville, N. C. for her health, but was not benefited.

Those who survive are her husband, two daughters, Mrs. C. A. Pence, of Hebron, Mrs. J. P. Brown of Columbus, two sons, C. C. Warden of Des Moines, Ia., and H. H. Warden of the home.

One brother, Frank Granger, of Vanatta, also survives.

Mrs. Warden was the daughter of Mr. and Mrs. Ralph Granger and was born north of Granville, March 27, 1851. Her girlhood was spent in the locality in which she was born. In 1872 she was united in marriage to Charles H. Warden. They had been long and respected residents of this county.

The funeral of Mrs. Warden will be held Sunday, November 12, at the First M. E. church at 2 o'clock. Interment will be made in Maple Grove cemetery. (Please omit flowers.)

THE people of the United States celebrate Thanksgiving day with more and more accord every year. Indeed, one might say they have more and more reason.

The fathers of New England, hemmed in between a wilderness and the sea, watched their doubtful crops in anxious memories of other years of famine. When they found that once more there was fish enough and pork enough and corn and beans and pumpkins and squashes and turnips enough to carry them through the winter they met to thank God, knowing full well how many hazards they had passed through, for those days as compared with today were days of pinching poverty. The New England historian, Dr. Palfrey, says, with a certain dryness, which shows probably some personal preferences, "Baked beans point to the time when it was desirable to make the most of the commonest vegetable by flavoring it with the flesh of the commonest animal."

All this is happily changed. For the world, indeed, the old peril of famine is well nigh forgotten. And why? The American of today gives thanks that famine is well nigh impossible.

First of all, he remembers that he is no longer dependent on the crops of a few hundred square miles or the fishing voyage of a single summer. Thanks to the providence of God as it has worked in history and to the work of brave men who believed they were children of God, the petty colonies which were thus described are now one nation. Of that nation the meaneast citizen, the most foolish, the weakest and the poorest, has every right and privilege before the law which belongs to the strongest, the richest and the wisest, though he were born in the purple of luxury. To the widow's son of the poorest citizen of that nation, then, there will come his daily bread in answer to his daily prayer, though it come from the milling of California wheat or be the salmon caught at the falls of the Spokan, without let or hindrance from any power of earth. If there is food in plenty in one region, as by the fall of an avalanche down a mountain, it will certainly seek consumption in another region. And this the American boy and girl owe to the good Providence and to the brave men who made this country one and have kept it one.

It is too much the blindness of our time to speak as if such a simple business as daily food came to us as a matter of course. There is, indeed, a careless habit in which Americans often speak, as if, because they are Americans, they have everything without so much as asking for it. Fourth of July orators and street corner braggarts alike talk of the natural products of this country almost in the tone of the emigrants who expect to pick up a doubleton upon the sidewalk. One is tempted to ask such braggarts why the country did not produce such wealth 100 years ago or 200 years ago. Why was Dakota then a desert? Why were the hills of Alabama only a hiding place for a few thousand Creek Indians? Why did they not forge the iron under their feet? Why did not the Iroquois in western New York pick from their trees the peaches and the pears such as have been growing there this autumn?

The answer is this: All the wealth of America comes to her from the work of her men and women. The victory which yields it is their victory. It is the victory of spirit conquering matter. It comes in the daily miracle of daily life, where children of God, led by God, taught by God, alive in his life and fellow workers with him, carry out his designs and subdue the earth. It is neither sensible nor grateful to speak of teeming granaries, of increasing trade, of new mines, of oil, of iron or of gas as if these things were wealth in themselves. They are only wealth when man strikes the rock and its waters flow. And this man must be not the savage man who cares only for his own personal appetite. It must be man, the child of God, seeking a future better than today, determined to bring in a nobler age than that which he lives in.

FATHER ASKS FOR HELP FOR TOTS, LEFT BY MOTHER

Charging that his wife deserted him and his six children a week ago and went to Baltimore, Louis Beaver of Orchard street, yesterday appealed to the officers of the juvenile court for assistance in caring for his motherless children.

This morning Juvenile Officer Dwyer took the Beaver children into court, where arrangements were made to place the youngsters in the children's home.

Just what action will be taken in regard to the mother, has not been decided upon. Juvenile officers say Mr. Beaver has not asked for the arrest of his wife, only a place for his children. According to the story told the officers, Mrs. Beaver with her two smaller children, left a week ago. In a note to her husband she said she was going to Baltimore, Md.

Nothing has since been heard of her by the husband, who after trying to care for the children, who continually cried for their mother, decided to appeal to the court. The children were sent to the home this noon.

GOV. WILLIS SILENT ON ELECTION RESULT RETURNS IN OHIO

[ASSOCIATED PRESS TELEGRAM] Columbus, Nov. 8.—Governor Willis was at his office at 9:30 o'clock this morning refreshed from a good night's sleep but declined to make any statements as to the result of the election until he had more information.

OHIO DEMOCRATS GAIN 3 SEATS IN GEN. ASSEMBLY

[ASSOCIATED PRESS TELEGRAM] Cincinnati, Nov. 8.—With one congressional district, the fifteenth, still in doubt at noon, the Ohio Democrats had made a net gain of three in the house.

Four Republican congressmen failed of re-election, J. E. Russell, Nelson E. Matthews, E. D. Ricketts and S. H. Williams from the fourth, fifth, eleventh and fourteenth districts. Their places in the Ohio delegation at Washington will be taken by B. F. Welty, John S. Snook, H. C. Claypool and Ellisworth R. Bathrick. The Republicans gained one congressman in the second district, where Victor Heintz was elected after a close race.

In the fifteenth district the race between George White, Democrat, and W. C. Mooney, the present Republican congressman was so close that at noon it was impossible to say who would be victor. Mooney was said to be running slightly in the lead.

Disregarding the fifteenth district, the Ohio delegation in the next congress will stand twelve Democrats and nine Republicans.

NOTICE TO PUBLIC

By Licking County Life Underwriters Association—Be Sure to Read This Warning.

The out-of-town representatives of a Western Life Insurance Company are operating in Newark and Licking County, and grossly misrepresenting their contracts of insurance to the public. Their working slogan seems to be "anything to get the business and get away with it," and they don't live in Licking County and can not be held accountable in the future for their misstatements.

Here is a sample of the misstatement: In one specific instance they quoted a whole life rate to a prospective purchaser and represented it to him that the policy would mature in sixteen years. Such statements as this is absolutely untrue, and had it not been that a local insurance solicitor called upon him the same man out-of-town would have got the application, and great disappointment would have been in store for the insured in the future, and a straightforward life insurance man would have been discredited. "A GREAT SYSTEM IN A GREAT STATE"

It's false economy to use cheap-looking stationery. You can't go wrong if the Advocate prints it

Cause for Haste.

"I was preparing to shave a chap the other afternoon," says a head barber. "I had trimmed his hair, and from such talk as I had had with him, I judged him to be an easy-going, unexcitable sort of fellow. But suddenly his manner changed. Out of the corner of his eye he had seen a man enter whose appearance upset him.

"'Hurry, George!' he muttered to me. 'Lather to the eyes—quick!—quick!—here comes my tailor!'"—Everybody's.

Professional vs. Amateur.

Little Nelly told little Anita what she termed a "little fig."

Anita—A fig is the same as a story, and a story is the same as a lie.

Nelly—No, it's not.

Anita—Yes, it is, because my father said so, and my father is a professor at the university.

Nelly—I don't care if he is. My father is a real estate man, and he knows more about lying than your father.—Auckland (N. Z.) News.

High Stakes.

A well-known New Jersey doctor was playing golf with a well-known New Jersey minister.

"Well, what are we playing for?" asked the doctor.

"Why, it's rather out of my line to put up anything," replied the minister.

"Well," insisted the doctor, "we ought to play for something, so I'll put up a pill and you put up a prayer."—Everybody's Magazine.

His Business.

"No matter how hard or close the times are," said the cheerful passenger, "my business is always growing."

"Sounds good!" said the doubting man in the next seat.

"Fact, I assure you!" the cheerful passenger declared. "I'm a gardener."—Browning's Magazine.

A Chip Off the Old Block

"There goes a millionaire who brags about his son to everybody who will listen."

"Evidently the young fellow is not like the average heir to great wealth."

"No, indeed. The old man was trimmed in the stock market last week, and when he discovered his own son had turned the trick he was the proudest man in the United States."—Birmingham Age-Herald.

Empties.

An old railroad man sat with a friend on a hotel piazza as a string of chappies went by in their flashy logs.

"Passengers or freight?" smiled the friend.

"Empties," said the old man.—Railway Conductor.

WEST VIRGINIA.

[ASSOCIATED PRESS TELEGRAM] Charleston, W. Va., Nov. 8.—With less than half the precincts of West Virginia heard from today, the result of the presidential contest in West Virginia is by no means decisive. Hughes having a lead of but 2,553 votes over Wilson in the 720 districts returned out of 1713 in the state.

For governor, Cornwell (D.) is leading Robinson his Republican opponent by 311 votes with but 711 precincts heard from. The senatorial vote shows Sutherland (R.) leading his Democratic opponent Chilton, by 4,053 votes with but 701 precincts heard from.

State Democratic Ticket is Elected; Report Incomplete

[ASSOCIATED PRESS TELEGRAM] Cincinnati, Nov. 8.—With partial returns from 29 counties in the state including practically complete returns from Cuyahoga, Hamilton, Franklin and Lucas counties, the following vote has been tabulated on the state ticket for the following offices:

Lieutenant Governor: Bloom, 231,725; Arnold, 211,941.
Secretary of State: Fulton, 227,308; Hildebrandt, 217,611.
Auditor: Donahay, 234,626; Adams, 209,189.
Treasurer: Bryan, 226,871; Archer, 213,420.
Attorney General: McGhee, 216,070; Turner, 212,882.

It is just and proper that all people should consider the source from whence our happiness has come and set apart a day on which to return thanks unto God for the goodness with which our country has been blessed.

After the Dinner.

The after dinner amusements can be of the sportive kind, suitable to the day. There might be potato races, each potato being carried on a spoon; guessing the number and weight of potatoes concealed in a heavy canvas bag or seeing who could grab up the greatest number of potatoes from a barrel in a given time on the end of a batpin and carry them to a basket at the other end of the room.
